# WILL PLAY TENNIS HERE

La Grande is to have a tennis club this year. A meeting of enthusiasts was held last evening and preliminary steps taken toward organizing the club. At present there are several desirable locations which are suitable for court purposes, and a special committee appointed for that purpose will make the selection this week.

The membership of the club numbers about 30 and the courts are to be put in shape immediately. During the summer months, several tournaments will be held. Prior to that, however, a program of single and double competitive sets will be held to determine the championship of the city. This is the first time that the real spirit and enthusiasm has been evinced in tennis and the summer sport will no doubt secure a strong hold in La Grande this summer.

### ADDITIONAL DONATIONS.

**Carnegie Donates Additional Sum to Baker City Library.**

There is general rejoicing at the library because of the action taken by Andrew Carnegie in increasing his donation for a public library from \$17,500 to \$25,000, relates the Baker City Herald. A letter has been received from Mr. Bertram, private secretary to Mr. Carnegie, stating that the increase had been made because of the excellent showing that had been made to Mr. Carnegie of the work that is being done here. There is not a library in the northwest that is in a more flourishing condition than the Baker City library and many of the libraries in larger cities do not have the circulation that is enjoyed here.

Baker City has an excellent foundation for building up a fine library that will rank among the best in the northwest. The books have been carefully selected with a view to giving the patrons the best there is in each line of literature and information can be secured upon almost any subject.

The plans for the new building are now being perfected by the architects, Wayland and Fennell of Boise, who are thoroughly familiar with library building. The building will harmonize in style with the city hall and will be an attractive addition to the city. The main floor will be devoted to reading rooms, one for adults and one for children. The stock room will also be on the main floor and the public will be allowed to select their books from the shelves as at present. In the basement there will be a lecture room and study rooms for school pupils who may desire to converse. No talking will be allowed in the main reading rooms. A copy of the proposed plans have been sent to Mr. Carnegie and as soon as they are approved by him they will be perfected and work on the new structure begun.
