# OLD SORES KEPT OPEN BY IMPURITIES IN THE BLOOD

If Old Sores were due to outside influences, or if the cause was confined strictly to the diseased flesh around the ulcer, then external treatment and simple cleanliness would cure them. But the trouble is in the blood, which has become unhealthy and diseased, and keeps the sore open by continually discharging into it the impurities and poisons with which the circulation is filled. This poisonous condition of the blood may be the remains of some constitutional trouble; the effect of a long spell of sickness, or because the natural refuse of the body, which should pass off through the proper avenues, has been left in the system and absorbed into the blood. Again, the cause may be hereditary; but it does not matter how the poison becomes entrenched in the blood, the fact that the sore will not heal is evidence of a deep underlying cause. Salves, washes, lotions, etc., may cause the place to scab over temporarily, but the blood is not made any purer by such treatment, and soon the old inflammation and discharge will return and the sore be as bad or worse than before. S. S. S. goes down to the very bottom of the trouble, cleanses and purifies the blood, and makes a permanent cure. S. S. S. enriches and freshens the circulation so that instead of discharging unhealthy matter into the place, it carries rich, tissue-building, flesh-heating blood to the diseased parts and in every way assists in a natural cure of the sore. Book on Sores and Ulcers and any medical advice free to all who write.
