PUSH LINE TO JOSEPH

In the afternoon mail budget from the east to General Manager J. P. O'Brien of the O. R. & N. company, yesterday came the long expected instructions from New York to proceed with construction of the Elgin-Joseph branch, says the Portland Journal. About \$500,000, the amount necessary to complete the line, has been provided. From 300 to 400 men will be put on at once.

For the last two months authorization from Mr. Harriman for this work has been expected daily. As soon as the effects of last year's money stringency began to wane Mr. O'Brien made application for the necessary funds to complete the road to Joseph. As reported in the Journal at that time, the instructions to proceed were inevitable, as the line had been built too far to abandon it, and the completion of the track to Joseph was only a question of a short time. The work could not well have been resumed earlier than the present time, owing to the copious rains and the soft condition of the grade.

Tap Rich Region.

The Wallowa county extension will be about 62 miles and will tap one of the richest livestock, grain and fruit-raising sections of the inland empire. The scenic beauty of Wallowa county is a feature of the extension. It is said the road will open a region that is a paradise for the tourist and sportsman.

About 15 miles of the line, from Elgin through the Grande Ronde canyon, is already in operation, and the grade is completed to within a few miles of the entrance to the Wallowa valley. It is believed that with the energy General Manager O'Brien will throw into the work the road can be completed into Joseph within the next three or four months.

Road Through Mountains.

The route is a difficult one for about half the distance from Elgin to Joseph. It runs through a very rough mountainous region, subject to severe storms of rain and snow in their seasons, and only the most substantial construction work will hold. The road will be first-class construction, of the same character that Chief Engineer Boschke has laid in the Lewiston-Riparia line, the Ilwaco extension, and numerous main line changes. About \$1,000,000 has already been spent on the Elgin-Joseph branch, and when completed it will have cost in the neighborhood of \$1,500,000.
