

La Grande Evening Observer

VOLUME VII.

LA GRANDE, UNION COUNTY, OREGON, FRIDAY, MAY 29, 1908.

NUMBER 257.

PREDICTS DEATH OF CURRENCY BILL

GENERAL FILIBUSTER STARTED BY LA FOLLETTE.
No Adjournment of Congress This Evening and Possible Death for the Currency Bill is Now Sensation at Washington—La Follette Joins the Filibuster Faction—Says Bill is Impractical, Evasive and Dangerous—Leaders May Give In.

Washington, May 29.—Possibility of unexpected delay and a possibility of death of the currency bill was developed this morning when Senator Stone of Missouri returned here and was nounced that R. M. La Follette of Wisconsin would join in talking the bill to death.

It is now believed that a vote will be delayed until next week by La Follette, who says it is evasive, dangerous, doesn't meet the requirements. Senator Gore also promised to join the filibuster faction.

These developments changed the whole situation here as last night it was believed congress would adjourn this evening. There is a possibility that the republican leaders will surrender when filibusters threaten to turn guns on the bill.

Cullerson opened the debate this afternoon and said: "The dangerous inflation of currency under the system provided in this measure will prove disastrous and result in contraction of the money supply." He criticized President Roosevelt and his administration as being wasteful and extravagant.

La Follette began the filibuster by demanding a count to see if a quorum was present. He was overruled by Fairbanks.

Parasites Fight Moths.

Boston, May 29.—Over 100,000 moth-destroying parasites have been let loose from the experiment station at Melrose Highlands this month, as a result of the campaign inaugurated

by the national and state agricultural authorities against the destructive gypsy and brown-tail moths. Four distinct varieties of parasitic flies and beetles have been used in such experiment. The large coloma beetles, as well as two other species closely allied to them, climb the trees, seize the caterpillars and never let go until they have devoured the wriggling insect. The tachnid flies lay their eggs upon the outer skin of the caterpillars, usually close up to the head. The larvae that hatch penetrate the skin of the caterpillar and feed upon its intestines.

MILLIONS POUR INTO TWIN FALLS

LAND OPENING ATTRACTS 1400 LAND SEEKERS.

The Opening of the Twin Falls-Salmon River Circulation Project on Monday Will Be a Record Breaker—Millions Deposited Two Hours After Opening of Registration Books—One of the Greatest Irrigation Schemes in the World.

Boise, May 29.—Two hours after registration opened at Twin Falls this morning for a drawing for opening on the 80,000 acres under the Twin Falls-Salmon River Circulation project, a half million dollars had been deposited and 1400 land seekers registered.

A special train from Chicago arrived this morning and later a delegation of 500 from Wyoming and Colorado. The opening on Monday will be the biggest land drawing ever held under provisions of the Carey act.

Only half of the project is to be opened at this time, the rest next fall. The tract located south of the original Twin Falls project, and is a part of the great system of circulation works developed by eastern capitalists under state supervision. It covers a half million acres, and is one of the world's greatest irrigation schemes.

THAW FORCED TO RE-ENTER ASYLUM

ALLEGED MISTREATMENT NOT GIVEN CREDIT.

Chairman of the Lunacy Commission Rules That Harry Thaw Must Return to Matteawan Asylum—Dangerous to Have Even Partial Freedom—Doctors Positive That Case is Incurable Paranoia—Is Liable to Break Out at Any Time.

Albany, N. Y., May 29.—Despite protest at mistreatment Harry Thaw must return to Matteawan asylum, according to Dr. Ferris, chairman of the state lunacy commission. "Thaw is undoubtedly an incurable paranoiac and is liable to have an outbreak at any time," Ferris said. "Matteawan is the only place in the United States where criminally insane can be properly cared for."

He said further: "I have carefully observed Thaw, so have Matteawan doctors. My opinion is not guess work. I am positive the case is incurable. It would be a great error to allow even partial freedom."

Thaw alleges that Baker, the Matteawan superintendent, "has it in for him." He says he was persecuted there by officials and attendants.

Ferris says he investigated the charges and believes them results of delusions that Thaw continually harbors.

Thaw's attorneys are preparing to make a hard fight to keep the client out of Matteawan.

Captain Wainwright Promoted.

Tacoma, May 29.—The booming of 13 guns this morning signaled the promotion of Captain Richard Wainwright to the rank of rear admiral and complete command of the second division of the battleship fleet. The admiral's flag was hoisted over the Georgia. President Roosevelt yesterday promoted Wainwright and Captain Schroeder, who ranks above Wainwright.

MAN DIED IN HIS BATH TUB

PORTLAND FINANCIER ENDOWS HOME FOR AGED.

The Pioneer Capitalist of Portland, P. J. Mann, Leaves Snug Sum for Aged in the Way of Endowment for a Home—Mrs. Mann Must Take Care of Family Foundling Who is Not Provided for in the Will—Museum Was Robbed Last Night.

Portland, May 29.—The half million dollar estate left by P. J. Mann, the pioneer capitalist, who died of heart failure in a bath tub last night, will be used to establish a home for aged.

Nogi Mann, a Japanese foundling, who has lived with the Manns for 25 years, is unprovided for so far as learned. Mrs. Mann will take care of him. Nogi has never been legally adopted, but has been looked upon as an heir. He has his own auto and everything money buys.

An Artistic Robber.

The artistic temperament of a burglar saved the Art Crafts society here thousands of dollars when a thief entered the museum last night and stole the exhibits of Mrs. Cunningham of San Francisco and Mrs. Watkins of Cleveland, O. The robber passed up exhibits worth thousands of dollars, and confined his thefts to two women's work, worth \$100.

INTER-RACE MARRIAGE.

Negro and White Society Lady Married in New York Today.

New York, May 29.—The first direct result of activities of the Cosmopolitan club, which gave its famous dinner last month, at which white women sat by negroes, came today in the wedding of Joseph Antonio Maceo, a negro, to Isabelle Mackey, a beautiful blonde and an American. Maceo is the son of General Maceo, the Cuban patriot, and has been a student in Syracuse university, where his expenses were paid by the Cuban government.

The couple was not at the Cosmopolitan dinner, but they have been interested in the movement. The marriage took place in the First Baptist church.

GRANEY WON'T PEACH.

Approached by Prosecution to Turn State's Evidence for Immunity.

San Francisco, May 29.—Eddie Grane, the indicted member of the prizefight trust, has been approached by the graft prosecution with an offer of immunity for turning state's evidence. Grane indignantly turned the proposition down, declaring he would never "peach" even to save himself. Abe Ruef's next trial will be for bribing supervisors to pass the prizefight ordinance.

BEVERIDGE TOO FAST.

Was Slated But Got Anxious and Lost His National Chairmanship.

Chicago, May 29.—It was learned from Congressman Lorimer of Illinois, that the reason Senator Burrows was selected as temporary chairman of the republican national convention, was that Beveridge became too enthusiastic when he was slated for the place. Beveridge wrote a "keynote" speech in advance, advocating President Roosevelt for a third term. The national committee heard of the action and sidetracked the Indian.

Conductor Killed.

Centralla, Wash., May 29.—Mike Helfrich, of Tacoma, a conductor, fell under a train and was killed this morning.

Denver Race Meet.

Denver, Col., May 29.—Indications point to an exceptionally large entry list for the annual 31-day racing meet at Overland park, running from June 13 to July 13, entries for which will close tomorrow. The purses and special stakes have been greatly increased

ed this season and now aggregate \$75,000. The value of the classic Colorado Derby has been raised from \$1,000 to \$2000, and even the overnights have been raised to \$200 each. In addition there are five other stakes and purses, each of a value of \$400. The Colorado Derby, which will be run Saturday, June 13, will be a sweep-stake for 3-year-olds, foals of 1905. The association will add to the entrance money an amount sufficient to make the value of the event \$2000, of which \$1500 will go to the winner, \$300 to second, and \$200 to third. The Derby distance, as in previous seasons at Overland, will be a mile and an eighth.

BIG DAM BREAKS; 3 WERE KILLED

FREIGHT TRAIN WRECKED AND PROPERTY DESTROYED

Because a Dam Across the Current River, Near Port Arthur, B. C., Broke Suddenly a Freight Train Was Wrecked—Engineer, Fireman and Brakeman Killed in Accident—Loss by Flood and Wreck is Estimated to be Half a Million Dollars.

Vancouver, May 29.—Word has been received here of the breaking of a big dam across the Current river at Port Arthur, B. C., the terminal of the Grand Trunk railroad, killing three, wrecking a freight train, city power station and carrying away a mile of track. The loss is placed at a half million.

The dam broke suddenly. A train running along the Canadian Pacific track below, was carried away. The engineer, fireman and a brakemen were killed.

Parlor Socialists.

New York, May 29.—Plans for organizing an international body of "parlor socialists," to be known as the International Socialist Educational alliance and to be composed of clergymen and men of other professions, were made today at a meeting of the Christian Socialist Fellowship. The Rev. John D. Long, the Rev. Charles Vail, the Rev. E. E. Carr, Edwin Markham, the poet, Dr. M. Thorner, a Jewish rabbi, and other clergymen and literary workers are interested in the movement.

Prepare Rose Carnival.

Portland, May 29.—Preparations for Portland's great rose carnival are now reaching a stage of completion and the city has already commenced to blossom as the rose for next week's magnificent festa. Thousands of dollars have been expended in preliminary preparations for the decorative effects, spectacular pageants and public amusements that will mark every day of next week. Many thousands of visitors are expected from all over the coast and northwestern sections.

CIRCUS DAY IS WELL ATTENDED

HUNDREDS COME FROM CORNERS OF THE VALLEY.

Francis Steeds, Natty Lady Riders, Wild Animals and Bands Galore Make a Spectacular Parade—The Weather Changes in Time to Allow Large Attendance of Farmers—All Streets Jammed With People for Blocks as Large Parade Winds Past.

"How the bugle played and played; how the horses neighed and neighed!"

Thus spoke James Whitcomb Riley once and such was the condition today when the Sells-Floto circus parade wound its way passed the blocks of admiring throngs.

The circus trains arrived in La Grande early this morning from Baker City and long before the average business man was about his work, the village of tents at the circus grounds had been erected, the hundreds of employees had been given their breakfasts, the animals had been fed, and in fact, everything was ready for the big parade that it might start on time.

The sudden clearing of climatic conditions today allowed for a large crowd of people from the valley, and when the special train and the regular train from the east had reached La Grande the crowd had assumed such proportions as are seldom seen, even on circus days.

All day long the throngs jostled between the circus grounds and the city proper. Merchants did a prosperous business and everybody was happy.

The parade was full of beautiful steeds that arched the necks and pranced along as band after band filled the air with circus music.

He-Hen Setting Again.

St. Louis, May 29.—"Mollycoddle," the maternal rooster of N. D. Kitchell, of Maplewood, will soon become a mother again. "Mollycoddle" achieved national fame recently by hatching 15 Plymouth Rock chickens from 15 eggs. Even this feat left his maternal instincts unsatisfied, and he is sitting again, with good prospects of another large brood.

Poor Seal Season.

Montreal, Que., May 29.—Reports from the seal fisheries state that the catch this year will probably be much smaller than usual, and a stiff increase in the price of seal skins will likely result. The catch for 1906 was worth \$600,000, and that of last year \$450,000. Estimates place the value of this year's catch at less than \$300,000.

Suppressing Rebellion.

Tokio, May 29.—The government is pleased with results of the fighting in Korea. It is announced that the rebellion will be crushed by August. In many parts of Korea insurgents have already surrendered.

A July Sale in June

The Fair's Great Unloading Sale Starts

Thursday Morning, June 4

It Will Pay You to Wait For It

A monster stock to be turned over to the public, for their benefit as individuals. A July Sale in June. It has to happen now. Our summer clearing sales usually begin after July 4th, but this year we are compelled to cut loose early for the reason that the stocks—splendid, complete stocks throughout the entire store—are entirely too heavy, and we must hasten to dispose.

Profits Entirely For the People

to be paid them as individuals, so that a few dollars spent in this great sale will go the circuit of the entire family.

Why it will pay you to wait: In the first place, this great sale will be conducted for the benefit of the people as individuals, so that the many great savings will mean much to them. Secondly: Our great stocks of fine merchandise throughout every department is tremendously heavy, so we are forced to cut prices with a ferocious vengeance in order to get rid of our surplus stuffs within a period of 15 days.

WAIT! WAIT! WAIT! for this great sale. It will pay you and pay you well. Store now in active preparation for your coming, and the splendid displays being arranged for your glad and easy choosing.

THE FAIR La Grande Oregon

IT OUGHT TO BE THE HAPPINESS AND GLORY of every citizen to so live and act that his fellow citizens will esteem him for his goodness, his kindness, and his usefulness. The principles of good citizenship should constitute the code of rules for every kind of business whether public or private. This applies particularly to the drug business, because, owing to the limited knowledge of the qualities of drugs by the general public, it follows that the reliability of the druggist is the chief guarantee of good service.
