FILIBUSTERING SPEECH BY LA FOLLETTE LASTS ALL NIGHT

Washington, May 26 .- Senator R. M. La Follette of Wisconsin, after - 12 hours and 23 minutes. enate, concluded his speech against the compromise on the emergency currency bill, apparently little worse for the terrific strain he has undergone. Senator Stone of Missouri immediately took up the filibuster which is the most remarkable of its kind ever seen in Washington. It is believed it will be continued until the leaders surrender and agree to adjourn without passing the bill.

La Follette's endurance has cause great comment. Most of his listeners were worn out with fatigue. The senators who were kept in their seats all day yesterday afternoon, and all through the weary hours of the night were in no condition to enjoy the hu mor today, and Stone's manner was like a funeral orator.

La Follette's speech breaks the record held since March 3 and 4, 1901 by Carter of Montana, when he made his famous fight against the rivers and harbors bill. When La Foliette closed his remarks, his voice showed no indication of weakening under the strain. It was clear and strong, and he spoke with the same vigor that characterized his remarks early yes

Due homage to soldier dead was paid in this city today. According to program everything moved off smooth ly, and from the time the old Veta thereby breaking the records of the fell in line on Adams avenue and with followed Old Glory to the cemetery, till the last number of the afternoon program had been carried out, everything was in keeping with the nature of the day.

The procession started on its march promptly at 11 o'clock, headed by the La Grande band. Then came the old veterans proudly waving aloft Old Glory, followed by the ladies of the W. R. In the afternoon the program as was carried out with but minor changes.

The Address of the Day.

Aside from the ritual performance the speaker of the day, Attorney Gro. r. Cochran, was the principal number on the program. His underlying thoughts were "inspirations of Memorial Day." He touched upon the pretty spectacle presented in the morning's parade, when 46 little girls, siting on a float, symbolized the states of the union. The speaker said in

"The 46 little girls symbolized the act that patriotic love has healed the wounds of the great struggle of the dxties, and cemented these United States into a great nation. The corehe great deeds done by those who have gone before us. "The whole day of Decoration day as been dedicated by our old soldiers or the remembrance of their silent omrades, and this day has become a iving monument unto those organizaions that observe it. The flag which Touts at half must today is another aspiration. The inspiration to the old soldier comes by reason of the fact hat it was he who was instrumental in placing it upon the heights of power and giory.

"The inspiration to our younger ceneration comes by reason of the fact that he feels from somewhere and some place the flags exercise a proecting power.

"The third inspiration of the day is the old soldier himself. The man who has been tried and found true. In science we learn of two great forcesthe centrifugal and centrepital. These two forces are in equilibrium, and our maintenance of that equilibrium. So our government is founded upon an equilibrium which it is the duty of every citizen to maintain. And, when in '61 the centerpital force of secession began to grow greater than the centrifugal force of the union, it was the power and the might of the old soldier that restored the equilibrium." Special tribute should be paid to
