

Natural Ice is The Best

THINGS ARTIFICIAL ARE AT BEST BUT A DECEPTIVE IMITATION OF THINGS NATURAL.
 Can an impure fountain send forth pure water?
 Our ice is not dependent upon a brewery or saloon for its supply. It is furnished by the God of Nature, Who sends forth the sparkling streams from the mountain side. It is taken from the river above the duck ponds and sawmills, and is the PUREST ICE on THIS MARKET.

Cheapest Fuel

Our CHAIN WOOD speaks for itself. The biggest loads and best wood, mostly dry, and put into your wood sheds.

FREIGHT FROM OTHER ROADS

Not alone have many passenger trains of the Great Northern road been sent out over the O. R. & N. through La Grande during the past few weeks on account of the floods in Montana, but much freight has also come through here. Last evening a train of 25 cars, loaded with hogs for eastern markets, passed through here and today another banana train was taken over this road. All these special trains have made an abundance of traffic which has necessitated the use of all available employes in the division point here. Regardless of the fact that aside from the rush in business in the O. R. & N. freight department, there have been not many trains from the other transcontinental roads, the traffic has been kept moving in a very satisfactory manner. This was made possible by the splendid power equipment of the local round house.

A SUMMER SCHOOL HERE

On the 29th of this month H. J. Hockenberry opens a summer school in this city, which will last for a period of six weeks. By reason of new laws passed by the last state legislature, there will be more teachers in attendance at this summer school than ever before, and Mr. Hockenberry looks for about 25 to register as students. The fact that all third grade certificates must cover physical geography and the two classes of literature, will require additional attendance this summer. However, all grades will be taught, and at the end of the term, examinations will be given for all grades.

Don't Believe It.

County Superintendent Bragg of La Grande and Prof. Churchill of Baker City, fished in Catherine creek last week, and report says that they caught only a few suckers and a bad cold but this has not been verified.—Union Republican.

The Democrat don't know anything about Union's Bragg, but Baker's Churchill has the reputation of being one of the best anglers in this neck of the woods. He has his baskets made to order as those kept in stock are too small to accommodate his catches, and he always uses the professor "fly." Professor Churchill says that his time is too valuable to change hooks.—Baker City Democrat.
