Last night there passed through La Grande a carload of live chickens. They were shipped from Nebraska. In the care there were 5400 chickens. They are consigned to a Spokane firm. The above facts make us wonder why an obvious opportunity to amass a competence should be so long neglected. Poultry can be raised as cheaply here as in Nebraska, and if, after paying the freight for so long a haul there is a profit left for the Nebraska poultryman, there should surely be money in the business for the eastern Oregon chicken man.

ROESCH VS. THE PEOPLE.

To the Editor:

Whatever may be proved as to the issuing and posting of notice of the local option election, one thing is clear. The people of Union county have plainly said that they wish the county to be freed from the liquor business. Affirming that the county officials have failed to do their duty in providing the special election, Mr. Roesch asks Circuit Judge Crawford to set aside the will of the majority and allow him to continue in his brewing business. The will of the people, if Mr. Roesch has his way, is to count for nothing. The business and moral welfare of the entire county is to be sacrificed that one man may continue to clear \$2000 per year. The people who elect judges and other officials, the people who own the homes and support our civilization, must all yield to the will of one man. Paid attorneys may plead for such a course. Some officials who have ever catered to the saloon may think it safe to trifle, but the citizens of Union county who have declared that the liquor business is to be outlawed will hardly yield their rights. The business men who have stood for a dry county in the teeth of threats and abuse are not of the sort to lie down before this attack. The suit now on will only arouse the people more thoroughly. If the brewers of Oregon want a dry state, they can soon have it and need only to pursue the tactics of Mr. Roesch. The people are sometimes slow, and usually patient, but they are learning that the liquor power cares nothing for their rights or will, and when enough people realize this they will arise and close the breweries for good and all.

Those in the party are Mr. and Mrs. J. M. Williams and two daughters and Mr. and Mrs. Joseph Dixon, all of Berkeley, and they are on their way to Pomeroy, Wash., on a few weeks' visit. They have been five weeks on the road, camping out at night and taking it leisurely by easy stages. They shipped the machine from Portland to The Dalles and have found the roads in bad condition all the way from Berkeley to Pendleton, a distance of about 1900 miles. Their machine is a 40-horse power Acme.—Pendleton E. O.
