**GALA ATTIRE TO BE GIVEN STREETS OF CITY JULY 4TH**

Many important steps looking toward the perfection of plans for a "bummer" celebration on July Fourth in this city, were taken last night, and commencing today, the plans outlined last night will be promulgated. The decoration committee is one of the subsidiary organizations of the general arrangements committee to sit last evening, and as a result of the meeting it can now be announced in the rough, what is to be expected in the way of street decorations on the eventful day. Bunting and streamers are to be strung on Adams avenue between the postoffice and the Henry & Carr furniture store, and from the corner of Jefferson and Depot to the corner of Washington and Depot. Electric arches of catchy design will be placed over the intersection of Adams and Depot. Splendor is to be given the streets at night by additional illumination with electric lights, principally incandescent lights, strung along the principal streets.

Working along these lines, the committee consisting of all the leading window decorators of the city, and Fred Hoosh to superintend the illumination end of it, will no doubt work out some new schemes at the final hour.

**Many Floats Promised.**

have been posted in every city and town of Union county, as well as Wallawa.

**SPECIAL TRAIN ON THE 4TH**

Steps have been taken by the general arrangements committee of the Fourth of July celebration, to have special trains from Union bring visitors from that side of the county. The only hitch experienced in this effort is, as to which company shall bring the trains here, as the Oregon Central desires to run its train on through Union to La Grande. It is possible that this will be done. At any rate, thinks the committee, there will be a train here on that date, which will bring with it a large number of visitors. Full announcement as to the time of arrival and departure will be made later.

**Standing Room Scarce.**  
 Standing room was at a premium again last evening at the Sherwood Electric theater. The films, as is generally the case, vary from the instructive to the humorous. The songs are good. The instructive feature of the attractions is the film presenting scenes from Sweden. They are clear and true to life.
