## MANY WILL BE DOWN TOWN

The incandescents used in illuminating the streets the night of the Fourth will be burning tonight and from now on. More will be added as soon as Mr. Housh can arrange to have the work done, and the wiring now up will be re-arranged. What was done for the celebration was meant only to stay up the one night, and to turn the lights on and off necessitated a good deal of extra work.

Lots of people will be down town tonight in order to enjoy the festival appearance of the streets and to attend the electric shows, which are both equipped with electric fans and are nice places to spend an hour.

Both Mr. Sherwood and Mr. Wilson, good percentage of their receipts for the next week to the lighting fund and are deserving of extra patronage now.

## INLAND EMPIRE BASEBALL

(Continued from page 1.)

disappears after tomorrow, there will be high class baseball between the La Grande and Baker City aggregations for a period of six weeks, three series at each town. Of course, this will not be under league protection, but it will be fast ball and something worth going to see. Final arrangements for this deal will be made tomorrow. There is a slight chance of the scheme falling through today, but it appears certain.

In the game today and the games tomorrow there may be a wholesale shifting of positions. The other three teams are in such relative position that a string of victories by one and of losses by the others will change the standing materially. It is only to be expected that the game tomorrow will be hard fought. Walla Walla won from Pendleton yesterday afternoon by a score of 4 to 3.

## A Square Deal

Is assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and their formulas are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless even to the most delicate women and children. Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles used in them, viz.—pure triple-refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, foul breath, coated tongue, poor appetite, gnawing feeling in stomach, bloatedness and kindred derangements of the stomach, liver and bowels. Besides curing all the above distressing ailments, the Golden Medical Discovery, is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or pelvic organs. Even in its ulcerative stages it will yield to this sovereign remedy if its use is continued in. In chronic Catarrh of the Nasal passages, it is well while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures the worst cases.

In coughs and consumptions caused by bronchitis, throat and lung diseases, except consumption in its advanced stages, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, long-continued coughs caused by irritation and congestion of the bronchial mucous membrane. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages—no medicine will do that—but for all the obstinate, chronic coughs, which, if neglected or badly treated, lead up to consumption, it is the best medicine that can be taken.
