TOY BALLOONS MUST GO.

Danger of Grain Fires Causes Ban to Be Placed on Sport.

Vigorous complaints are being made against toy balloons at this time of the year because they are dangerous from a fire starting standpoint. Several grain fires have already been caused by balloons, though they were always found, fortunately, in time to prevent serious conflagrations.

Today the attention of the mayor and chief of police was called to the practice of sending up toy balloons, and Mr. Murphy asks that the sport be given up by the boys. Should the request not be complied with stringent steps will be taken to stop it.—Pendleton East Oregonian.

Threshing Well Advanced.

During the past week considerable threshing has been done in portions of Umatilla county and the reports received here are very hopeful. Though comparatively little harvesting has yet been done, the yields so far heard from are ahead of what was expected a short time ago, and in some instances the crops are normal.

Unlike ordinary seasons threshing commenced first in the "northwest" country this year and a number of combines were running this week. At the W. P. Temple place on Despain gulch a yield of 25 bushels per acre is reported and the grain makes No. 1 wheat, weighing 59 pounds per bushel.—Pendleton E. O.

New Road in Panhandle.

There is a movement on foot, backed by good, substantial men, for the construction of a wagon road to L. H. Latham's ferry in Idaho. The construction of this road to the ferry would be a great advantage to this section of the country. There are a great number of families across the river in Idaho, who have to go 20 or 30 miles to trade at Cambridge, Idaho, who would come to Richland if this road was constructed. Let us hope that this movement will be successful, as it will be a big item for our town.—Eagle Valley News.

Stimulation Without Irritation.

In case of stomach and liver trouble the proper treatment is to stimulate these organs without irritating them. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels without irritating these organs like pills or ordinary cathartics. It does not nauseate or gripe and is mild and pleasant to take. A. T. Hill, druggist.

La Grande went dry June 1, but it was proven over one year ago that there is an abundance of pure, sparkling artesian water in less than 1000 feet below the surface. Why not have artesian city water?
