GOOD APPLES.

Winter Variety of Apples Keep Well Until Middle of July.

Rev. O. H. King last fall bought a box of red apples from Will Bantz, of Ladd Canyon. The apples at that time were too hard to use, so Mr. King put them in the cellar. A couple of days ago he brought one of them to this office, and a better apple we have never seen at this time of year. The fruit was perfectly colored, perfectly sound and of excellent flavor. We do not know the variety, but so long as apples grown here can be kept until July without special care and are still in perfect condition, there is little danger that our fruitgrowers will suffer from the complaint known as "pursus elephantitis."
