**WAR ON PATENT MEDICINES.**

**Government Has Seized Large Stock of Goods for a Test.**

Washington, July 17.—Medical experts of the department of agriculture today began preparations for making a widespread warfare on patent medicines and proprietary articles. A test case, resulting from the seizure of a large stock of medical and toilet preparations from a Washington department store, will decide the success or failure of the movement. The goods seized were mainly the products of a well known manufacturer of beautifying preparations. This concern has engaged attorneys to fight the case, and will have the assistance of many other similar companies.

It is alleged by the government experts that the articles are misbranded in violation of the pure food act and are liable to condemnation and confiscation for the reason that the packages and labels bear certain statements regarding the drugs which are false and misleading—that is to say, that certain "fertilizer tablets" are "a specific for curing flatulency and all gastric troubles" and are "a cure for obesity." "And said last-mentioned statements," continues the libel, "are false and misleading in this, that the said last-mentioned drug is not a specific for curing flatulency and gastric troubles and is not a cure for obesity." "The Bliss of Youth" preparation is declared misbranded, in that it does not restore the complexion to child-like purity, and the "Excelsior Skin Food" is declared not to be a food for the skin, and both are therefore misbranded in violation of the pure food act. The mixtures seized are known as the "Madame Yale" preparations. The department of agriculture intends to make a test case of the seizure. It is the first of its kind under the law.

**Wear Only White Shirts.**

London, July 17.—White clothing is the best protection against sunstroke and heat prostration, according to the Lancet, the leading British medical journal. White attire, and especially white shirts, is also recommended on the ground of cleanliness and freedom from disease germs. "When a man finds it convenient to wear colored shirts and cuffs," is the medical journal's lofty argument, "it means in reality that he can carry dirt for a little longer without giving offence than if he wore spotlessly white material. Materials which do not compel constant changes by becoming offensive to the eye, if ever so slightly soiled, are bound to be worn too long. Again, by wearing only religiously clean linen a man reduces the chances of picking up bacteria."

**Better Than Spanking.**

Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Summers, Box W, Notre Dame, Ind., will send free to any mother her successful instructions. Send no money, but write her today if your children trouble in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night.
