OPERA HOUSE BLOCK, LA GRANDE, OREGON

SPECIAL TRAIN SUNDAY

The ball game here between the Elgin and Cove teams promises to be a warm one. Both teams are strengthening in every way possible, and both are determined to win. Special trains will be run from both places to La

Grande Sunday morning, and a large crowd of fans will be present. Besides the wager of \$250 put up by the management of each team, there is being a large number of smaller bets made, and the umpire will have no picnic while he handles the indicator. He will be accused of crimes, conviction of which would send him to the pen for at least a couple of thousand years.

Crowds Gather at Quebec.
Quebec, July 17.—Today marked the gathering in this city of the advance guard of the tremendous throng which will next week welcome the Prince of Wales to Canada and celebrate the tercentenary of the momen-

tous battle between the French and the British on the Plains of Abraham. The hotels and residences of the city will be wholly inadequate to entertaining the crowds and thousands will spend the week in the "ten cities" which have sprung up in the vicinity of Quebec. Every effort has been made to make the pageant and other festivities the most noteworthy of their kind ever held in America. Preliminary exercises will be held on Sunday, Monday and Tuesday, but the great events of the tercentenary celebration will follow the arrival of the Prince of Wales on Wednesday.

Another Big Balloon Race.

St. Paul, Minn., July 17.—With eight of the world's most famous racing balloons as entries, the first international balloon race ever held in the northwest will take place from the state fair grounds tomorrow. The big contest will serve as a fitting climax to Shriners' week and will undoubtedly be one of the most important aerial races ever held in America. Monster air bags from foreign countries will compete against the best in the United States, including balloons representing the St. Paul and Minneapolis clubs. The local meet, the first of its kind ever held in the northwest, will be given by the new aero club of the northwest, and will be under the official sanction of the Federation of Aeronautic clubs.

REAL GAME LAWS EXIST

A great many nimrods seem to have an idea that because this county was one of those neglected at the last session of the legislature in the matter of proper game laws, there is no need to pay \$1 for a hunter's license. County Clerk Wright says that the number of licenses issued this year is greatly below the number issued last year during the corresponding period, and he is of the opinion that several will probably have to pay a fine for their neglect to provide themselves with this very necessary piece of paper.

Another erroneous belief existing among the hunters who have not taken the trouble to inform themselves is that because there is no closed season for deer in this county, there is no law at all. That part of the deer law in force throughout the state is: "It shall be unlawful within the state of Oregon, between one hour after sunset and one-half hour before sunrise of any day of any year, to hunt, pursue, take, kill, injure or destroy any deer; and it shall be unlawful for any person to take, capture, kill or destroy, in any open season, more than five deer. It shall be unlawful at any time, to sell or offer for sale, barter or exchange, any deer whatever. It is unlawful to hunt deer at any time with dogs."

Thus it will be seen that there is a deer law in force throughout the state and that any one who shall kill more than five deer during any year is liable to a fine that might be imposed if we had a closed season. At all times and in every county it is unlawful to sell any game bird, animal or fish.

Cherry Tree a Wonder.
There is a cherry tree on the C. H. Taylor farm, six miles south of Salem, on the Jefferson road, which measures seven feet, seven inches in circumference and bears as much fruit as some entire orchards, the crop this year being several wagon loads. The owner estimates that the tree is at least 50 years old. The cherries resemble Black Republicans, but are more tart, and a delicious cherry. When the young orchards in the vicinity of Salem get as old and as large as that tree, a cannery will be required on each farm.—Salem Journal.

RICH SPOKANE MAN DEAD

Seattle, July 17.—George D. Potter of Spokane, one of the best known mining men in the Pacific northwest, and inventor of Potter's safety fender for street cars, was found dead in his room in the Prince Albert hotel this morning. It is thought death resulted from heart disease, though an autopsy will be held to determine the exact cause.

Potter was to have kept a business engagement this morning with D. A. Doyle of the Seattle Electric company. The proprietor went to call Potter, but there was no response to his knock. Potter was found lying in bed.

Friends of Potter expressed surprise that no money was found in his pockets as he always carried lots. Not a cent was found. A peculiar shaped gold nugget, the first picked up when Potter discovered gold in the famous Coeur d'Alene district, was also missing. Potter is worth \$300,000.

Stimulation Without Irritation.
In case of stomach and liver trouble the proper treatment is to stimulate these organs without irritating them. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels without irritating these organs like pills or ordinary cathartics. It does not nauseate or grip and is mild and pleasant to take. A. T. Hill, druggist.
