Saturday evening a great gathering of our people assembled at the corner of Adams avenue and Depot street to hear an address of Governor Chamberlain. It was a beautiful evening. The streets were illuminated with strings of electric lights. Many of the business houses were decorated in the national colors. Governor Chamberlain spoke entertainingly along the lines of the large diversified resources of our state and paid a glowing tribute to Union county. It was a happy thought to take advantage of the presence of the governor in asking him to speak and the large attendance showed its appreciation of the opportunity. BILL TAFT VARIETY. The Biggest Cherry Tree in the Northwest. This paper had a story of a cherry tree seven feet in circumference and now comes a man with a tree that knocks the other alleged biggest cherry tree silly. C. W. Scott, who has 100 acres of the old Estes place, three miles from the city as the crow flies, that measures nine feet around the smallest part of the trunk, and 11 feet at the largest. It is the Bill Taft of all cherry trees in this part of Oregon—unless a bigger tree shows up—and any committee is welcome to come out and use the tape line. It bears one-half Elmg and one-half Royal Anne. We would like to hear some more big cherry tree stories, and also how large a yield was taken this year off a single tree.—Salem Journal. Do You Open Your Mouth? Let a young bird and gulp down what next food or medicine may be offered you? Or do you want to know something of the composition and character of that which you take into your stomach whether as food or medicine? Most intelligent and sensible people nowadays insist on knowing what they employ whether as food or as medicine. Dr. Pierce believes they have a perfect right to insist upon such knowledge. So he publishes a standard and on each bottle wrapper, what his medicines are made of and verified by science. This he feels he can well afford to do because the more the ingredients of which his medicines are made are studied and understood the more will their superior curative virtues be appreciated. For the cure of woman's peculiar weaknesses, irregularities and derangements, giving rise to frequent headache, backache, dragging-down pain or distress in lower abdominal or pelvic region, accompanied, oftentimes, with a debilitating, pelvic, catarrhal discharges and kindred symptoms of weakness, Dr. Pierce's Favorite Prescription is a most efficient remedy. It is equally effective in curing painful periods, its being strength to nursing mothers and in preparing the system of the expectant mother for baby's coming, thus rendering childbirth safe and comparatively painless. The Favorite Prescription is a most potent, strengthening tonic to the general system and to the organs distinctly feminine in particular. It is also a soothing and invigorating nerve and cure nervous exhaustion, nervous prostration, neuralgia, hysteria, spasms, chorea or St. Vitus's dance, and other distressing nervous symptoms attendant upon functional and organic diseases of the distinctly feminine organs. A host of medical authorities of all the several schools of practice, recommend each of the several ingredients of which "Favorite Prescription" is made for the cure of the diseases for which it is claimed to be a cure. You may read what they say for yourself by sending a postal card request for a free booklet of extracts from the leading authorities, to Doctor Pierce's Invalids' Hotel and Surgical Institute, Buffalo, N. Y., and it will come to you by return post.
