Portland Business College

"THE SCHOOL OF QUALITY"

Tenth and Morrison, Portland, Oregon. A. P. Armstrong, L.L.B., Principal.
We occupy two floors 65 by 100 feet, have a \$20,000 equipment, employ a large faculty, give individual instruction, receive more calls for office help than we can meet. Our school admittedly leads all others in quality of instruction. It pays to attend such an institution.
Said a Business Man: "Keep hammering away everlastingly on thorough work. It will win out in the end." Said an Educator: "The quality of instruction given in your school makes it the standard of its kind in the Northwest."
Open all the year. Students admitted at any time. Catalogue free.
References: Any bank, any newspaper, any business man in Portland.

RED THUNDER GOES AGAIN

Last night Chief Red Thunder, of the Nez Perce Indians, accompanied by T. B. Early, returned to the city, and left this morning for the Wallowa country. It will be remembered by Observer readers that these two men passed through La Grande a couple of months ago, bound for the same district, but were unable to accomplish their errand, whatever it was, on account of the depth of the snow. Although denied by Mr. Early, it is rumored that they are in search of a fabulous lost mine, the locality of which is only known by Red Thunder, having descended to him through his father, who was a brother of the famous Chief Joseph.

Amateur Ball Sunday.

When the Cove ball team crosses bats with the Amateurs Sunday at the Athletic park, spectators can feel assured that no such exhibition will take place as the one witnessed at the Elgin-Cove game. In fact, fans think that the Cove aggregation will meet their Waterloo. The public-spirited La Grande band will furnish music to help the Amateurs win the game, in return for which the team will play a game the Sunday following, the receipts from which will be donated to the band. The Amateurs have been doing some hard practicing this week, and every man is determined to take some of the contest out of the Cove team, and the fact that Cove has won one game and lost one to the La Grande team only adds to the interest that is already high.

Killed by Lightning.

During the electrical storm here the other day, George Moenkhauer, the market gardener, living out near the Stoddard planing mill, was very much startled when his youngest son came running to where he was talking with a neighbor, crying, "Papa, Henry is dead! Henry is dead! The lightning killed him!"

Startled and excited, George exclaimed, "Where is he, son?"

"He's round in the house," answered the little fellow.

A Notre Dame Lady's Appeal.
To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbago, backache, pain in the kidneys or neuralgia, write to her for a home treatment which has repeatedly cured all of these tortures. She feels it her duty to send it to all sufferers free. For cure yourself at home as thousands will testify—no change of all mode being necessary. This simple discovery harnesses tritic acid from the blood, loosens the stiffened joints, purifies the blood and brightens the eyes, giving elasticity and tone to the whole system. If the above interests you, for prompt address Mrs. M. Summers, Box 11, Notre Dame, Ind.

Notice.

To My Friends and Patrons:
Having sold my stock of hardware etc. to Messrs. Lilly and Foster, who will continue in the same line of business, and at the same place, Mr. Lilly having been associated with me for the past six years, I take pleasure in recommending the new firm to my many friends and patrons and trust that you will find business with them as pleasant as our business relations have always been. I will be found at the store during the month of July, and will be pleased to have as many of my friends call and settle their accounts as possible during the month.

Thanking you for the many favors shown me, I remain,
Very respectfully,
MRS. T. N. MURPHY.

La Grande went dry June 1, but it was proven over one year ago that there is an abundance of pure, sparkling artesian water in less than 1000 feet below the surface. Why not have artesian city water?
