

LOCAL ITEMS.

George Bard is over from Union today. A. J. Rector, who has been in the employe of the Grande Ronde Meat company, leaves tonight for Portland, where he expects to go into business for himself.

Lee Bell, the rustling Elgin booster, was a La Grande visitor today. Mr. Bell came up to confer with Mr. Lavey, the La Grande publicity manager, relative to some work which Elgin is doing along the lines of publicity for that place.

Sam Kluder, one of the well known pioneers of eastern Oregon, who followed the freighting business for several years, later engaged in the sheep business in Baker county, has disposed of his extensive interests and has gone to live in Portland.

The many friends of Mrs. Pete Thelisen will be pleased to learn that her fever has left her, and she is considered out of danger. It will be one or two weeks yet before she will be able to be removed home from the hospital.

Will S. Landrum, who has been visiting his mother in Baker City, left last evening for his home in La Grande, where he is assistant postmaster. He was accompanied by his sister, Miss Hazel, who will spend a few weeks visiting him.—Baker City Herald.

Rev. Upton H. Gibbs expects to leave the first of next week for Victoria to visit his sister. When he does it will be the first relative he has seen since coming to this country from England 27 years ago. He expects to be absent the second and third Sundays in August.

Frank Tullis, lino-type operator on the Pendleton Tribune, came over from that place yesterday to visit with relatives. Mr. Tullis says visiting in La Grande at this time is like a vacation at a summer resort. In fact the weather is so delightful here that Mr. Tullis will probably not return until September some time.

Harvey Thomas, of Mountainbome, Idaho, who spent yesterday in this city with his old-time schoolmate, C. M. Humphreys, returned home this morning. Mr. Humphreys gave him an opportunity to see a portion of the valley and after taking a hurried look Thomas pronounced the Grande Ronde valley the most beautiful spot he had seen in the west. When one knows that Mr. Thomas has made a very extended trip through the western states, this compliment is indeed an honorable one.

Miss Lavelle Florence of Pendleton, and Edward Roberts, son of Mr. and Mrs. A. A. Roberts of this city, left today for Meacham to join a Pendleton camping party.

Mrs. D. M. Slocum of Cleveland, O., who has been visiting with her brother, George E. Goode, left today for Eugene, where she will join her husband. They will locate permanently in that city.

Mrs. Donlon of Portland, who has been visiting her daughter, Mrs. W. J. Lindsey, accompanied her daughter, Mrs. F. T. Mittleur to Baker City, who has also been visiting here for a few days.

Miss Ella Copeland of Walla Walla, who has been in the city the past few weeks, the guest of Miss Marjorie Sulworth, returned home this morning. She was accompanied home by Miss Marjorie, who will visit her a few days.

Kamela parties report that the huckleberries of that region are not numerous this year. Those that are to be found are yet green and it will require nearly a week to ripen the fruit properly. The shortage is no doubt due to the onslaughts made by pickers in the past when entire bushes were uprooted and piled in a heap to facilitate picking.

STRUCTURES NEARLY DONE

While private individuals are building homes here and there, and improving others, the constructing hammer and saw are also heard at the Palmer mill in the outskirts of this city. The large box factory which the company is building, is now well under way, though it will require additional time to complete it. The 500-foot loading platform and shed is finished and stand a symbol of the policy actuating the company—thoroughness. The large dry sheds are slowly taking shape, though workmen have been working on them only at leisure hours in the past. In a few weeks there will be as many subsidiary buildings to the big mill as is usually required to house the ordinary sawmill itself.

Election for 1908. Registration reopens September 20. Presidential election November 3. Closes for election October 20.

GIVE NATURE A CHANCE.

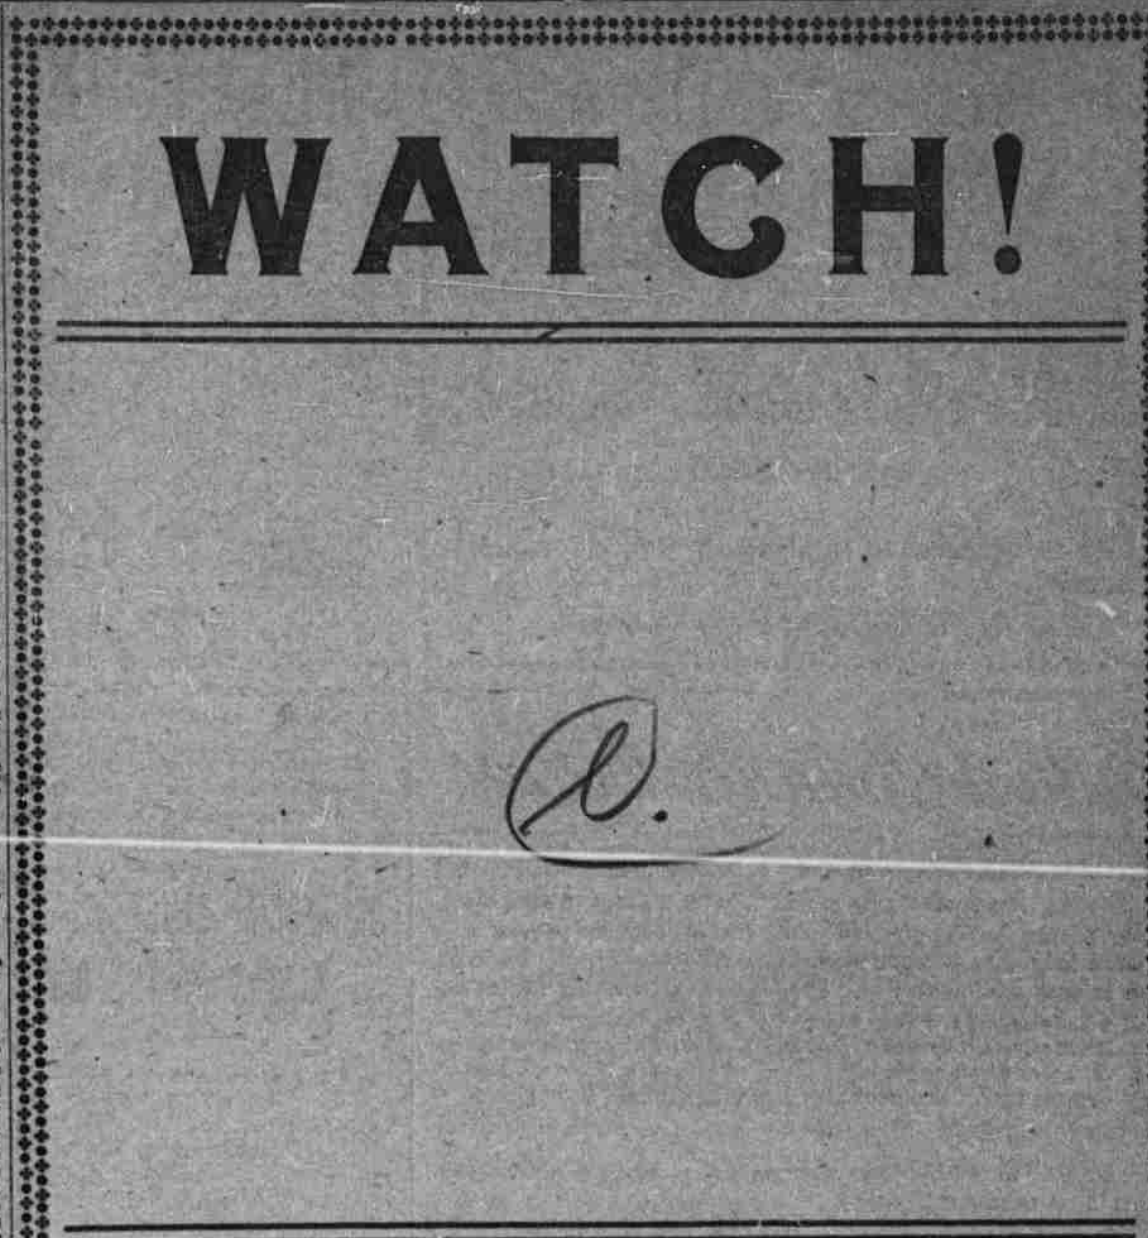

The strongest minds have gotten their inspiration direct from Nature. Nature is the great teacher of mankind. We can look to Nature for all our needs. In the recent Russo-Japanese war the surgeons of the Japanese navy and army discovered that wounds would heal more rapidly and with better success if left to Nature. They washed the wounds with water which had been boiled and thus sterilized—then bandaged the wounds with clean linen—no powerful drugs or antiseptics were used in their first aid to the injured. Such methods resulted in the loss of only 22 out of 622 men treated in a naval hospital for their wounds. It is only from lack of observing Nature's laws that most of us suffer at one time or another from indigestion, impure blood and a generally run-down system. Our remedy lies in Nature's laboratory—deep in the fragrant woods—where are many American plants, the roots of which when properly treated will supply a health-giving tonic.

Many years ago a physician who had an extensive practice among the afflicted made a striking departure from the usual methods of his confreres in medicine—he went straight to Nature for the cure of those stomach disorders which resulted so often in an anemic condition, or impure blood, loss of appetite, pale or pimply skin, feeling of lassitude and weakness. He found that the bark of the Black Cherry-tree, the root of the Mandrake, Stone root, Queen's Root, Bloodroot and Golden Seal root, made into a scientific, non-alcoholic extract by the use of glycerine, made the best alternative and tonic. The refreshing influence of this extract is at once apparent in the recovered strength of the patient—the vital fires of the body burn brighter and their increased activity consumes the tissue rubbish which otherwise mangles the system. This alternative and tonic extract has been found to stand alone as a safe, invigorating tonic as it does not depend on alcohol for a false stimulation, but is Nature's own method of strengthening and cleansing the system. It tones up the stomach and the blood in Nature's own way. It is well known as the work of Dr. Pierce's Golden Medical Discovery. The name was given to this vegetable compound because one of the important ingredients was Golden Seal root. Such an authority as Dr. Roberts Bartholow, of Jefferson Medical College, says "very useful as a stomachic tonic. Cures catarrh of the stomach and headaches accompanying the same." Dr. Grover Coe, in his book Organic Medicines, speaking of Golden Seal root, says that "as a liver invigorator it has few equals." Further he says, "In chronic inflammation of the bladder we deem it one of the most reliable agents of cure. As a tonic in the convalescing stages of fevers, pneumonia, dysentery and other acute diseases Hydrastis (Golden Seal root) is peculiarly appropriate."

Dr. Coe continues: "We would here add that our experience has demonstrated the Hydrastis or Golden Seal root to be a valuable remedy in bronchitis, laryngitis, and other affections of the respiratory organs." "Of special value in chronic catarrh of the stomach and bowels following abuse of alcohol, a tonic after malarial fever. Has a distinct, anti-malarial influence. Good in all catarrhal conditions, as uterine catarrh, leucorrhoea, etc. Is aervative agent in chronic dysentery."—Holbert L. Haro, M. D., University of Pennsylvania.

Prof. John M. Scudder in Specific Medication says: "It stimulates the digestive processes, and increases the assimilation of food. By these means the blood is enriched, and this blood feeds the muscular system. I mention the muscular system because I believe it first feels the increased power imparted by the stimulation of increased nutrition. The consequent improvement on the nervous and glandular systems are natural results." In relation to its general effects on the system, there is no medicine in use about which there is such general unanimity of opinion. It is universally regarded as the tonic useful in all debilitated states."

After many years of study and laboratory work Dr. R. V. Pierce produced the most happy combination of this Golden Seal root with other efficacious roots—enhancing and increasing in curative power these native plants from our American forests by the addition of chemically pure glycerine, of proper strength, which is far better than alcohol, both for extracting and preserving the medicinal principles residing in plants. Glycerine itself is useful in medicine to subdue inflammation and by cleansing the membrane of the stomach of abnormal secretions aids in the cure of dyspepsia, and stomach and intestinal troubles. The People's Common Sense Medical Adviser, 1 1/2 pages, is sent free, on receipt of stamps, to any expense of mailing only. Send 27 one-cent stamps for the book in paper covers, or 21 stamps for the cloth-bound volume. Address Dr. R. V. Pierce, 603 Main Street, Buffalo, N. Y.

The Golden Rule Co. BEST STOCK SMALLEST PRICES

A Notre Dame Lady's Appeal. To all knowing sufferers of rheumatism, whether muscular or of the joints, sciatica, lumbago, backache, pains in the kidneys or neuralgia pains, to write to her for a home treatment which has repeatedly cured all of these tortures. She feels it her duty to send it to all sufferers free. You cure yourself at home as thousands will testify—no change of climate being necessary. This simple discovery banishes uric acid from the blood, loosens the stiffened joints, purifies the blood and brightens the eyes, giving elasticity and tone to the whole system. If the above interests you, for proof address Mrs. M. Summers, Box R, Notre Dame, Ind.

Cherries for Sale. Royal Anne cherries at Stoddard farm, 20c gallon. Inquire of J. E. VanDermullen, Red 932. 7-231f

New Industry for Freewater. That Freewater, in Umatilla county is to become a manufacturing town of no mean dimensions, is evidenced by the many enterprises being established there for working up the surplus crops of all kinds. The latest industry is that of an alfalfa meal mill, which is now being organized at that place. An expert in the making of this nutritious stock food is negotiating with the leading moneyed men of the valley for the location of a mill at that place, to take care of the surplus alfalfa grown in the Walla Walla valley. With a cannery working to full capacity, employing over 100 men and women, the fruit not otherwise marketable, is being prepared for the markets and finds a ready sale.—Exchange.

SKIDDER AT WORK. Marvelous Machine Skids Logs for Palmer Lumber Camps. To those who visit the Palmer lumber camps, is revealed a marvel when the monster skidder which was purchased by the company some time ago and is now in full operation, is set in motion. With its long arms like a devil fish, it reaches out 1000 feet at any angle and with almost unlimited strength tows the logs into the loader. The machine is one seldom seen in Oregon, and vouches for the up-to-date methods employed by the local company. Time and labor salaries are reduced by the appliance.

Statement of the Condition of the FARMERS AND TRADERS NATIONAL BANK

OF LA GRANDE, At the Close of Business July 15, 1908.

Table with columns ASSETS and LIABILITIES. Assets include Time loans, Overdrafts, Bonds, Banking house and fixtures, Other real estate, CASH AND AVAILABLE ASSETS, U. S. bonds and premiums, Demand loans, Cash and due from banks, 5 per cent redemption fund. Liabilities include Capital stock, Surplus and undivided profits, Circulation, Dividends unpaid, Rediscouunts, Deposits and due to banks.

We want your banking account. We are careful with any business entrusted to us, and our record for conservatism in the past is our best guarantee to you for the future. NOT THE LARGEST, but let us convince you that WE ARE THE BEST bank to do business with.

The Farmers and Traders National Bank OF LA GRANDE

Advertisement for Rexall Americanitis Elixir. Text: 'Is Your Boy or Girl Thin or Nervous? Parents do not seem to realize the great importance of curing nervousness in their children. They call in a doctor for a cough or a cold, but nervousness does not strike them as being serious enough. It is. A thin, nervous child rarely develops into a strong, healthy man or woman. More often nervous conditions become chronic and the child becomes a life-long, delicate, nervous invalid. You can positively cure nervousness in your child with Rexall Americanitis Elixir. This remarkable remedy supplies phosphorus in soluble form to the body, tones and quiets the nerves and brings them to a normal, permanently healthy condition. The first bottle will convince you of the genuine merit of this remedy. Your duty to your child should urge you to try it. 75 Cents Per Bottle. A.T. HILL DRUGGIST'
