AMPLE SEATS FOR TOURISTS

The George Palmer Lumber company has donated to the Conductor's order of this city, an ample supply of lumber which will be used to construct seats and rest places for the excursionists who will "Join the bunch" on August 9 for Looking Glass park. The management of the excursion has availed itself of this opportunity and there will be seats in abundance.

"Happy" Happersett, who is an old standby switchman of the local yards, has the concession agreement, and he will be on hand with soft drinks and refreshments of all kinds. The conductors have put a ban on anything stronger than pop, as they wish to make the affair as high class as possible.

That hundreds will go is already evident judging by the liberality of ticket purchases.

HOW SHE KEEPS BEAUTIFUL.

The Mystery Solved.

Like the flowers that bloom in the spring the young girl just budding into womanhood is an inspiring sight and she is usually beautiful if she is perfectly healthy. She stays beautiful just so long as her health and constitution remain good. Let her be nervous, have headache, sleepless nights, and how soon does it take for wrinkles, crow's feet and dark circles to appear in the face? Her cheeks were rosy until she began to suffer from woman's weaknesses and the constantly recurring pains and drains brought her quickly from the beautiful age to the premature middle age. It was not meant for women to suffer so—it is due to our unnatural, but civilized methods of living, and to the fact that so many neglect those small ills which soon lead up to larger ones. Nothing so drags a woman down as those constantly recurring periods when she suffers more and more from a chronic condition that can be easily cured. No woman should take an alcoholic compound for that will disturb digestion, and the food is quickly compacted and becomes hard and tough in contact with alcohol, rendering the food indigestible. She must go to Nature for a cure. The native Indians of early times were far from wrong when they called a marvellously effective medicinal plant "Squaw root"—what the physicians of our day called Caulophyllum or Blue Cohosh. This and Black Cohosh, Golden Seal, Lady's Slipper, and Unicorn root, are important ingredients of a wonderfully successful remedy in modern times, namely, Dr. Pierce's Favorite Prescription. Having made a specialty of the diseases of women in the early sixties Dr. Pierce soon found that a glyceric extract of these roots with Hydrastis or Golden Seal and Lady's Slipper root, combined in just the right proportions, made the very best tonic and cure for the distressing complaints of women. Where women suffered from headache, weakness, nervousness and lack of sleep, it was usually due to functional trouble, therefore this prescription directed at the cause cured 98 per cent. of such cases. That is why Dr. Pierce soon put it up in a form easily to be procured all over the United States.

Aching from head to foot—that is the condition that afflicts some women at stated periods—backache, dizziness, and pains almost unbearable. An honest and a safe remedy which no woman can afford to lose the opportunity of trying for the cure of these distressing complaints which weaken a woman's vitality is Dr. Pierce's Favorite Prescription. Dr. Pierce not only assures you that his "Favorite Prescription" is honestly made, but he lets you know just what it contains.

The best of medical authorities recommend and extol the virtues of the above ingredients in "Favorite Prescription." This E. Ellingwood, M. D., Professor of Materia Medica, Bennett Medical College, Chicago, says of Golden Seal: "It is an important remedy in disorders of the womb. In all catarrhal conditions." Of Lady's Slipper root he says: "Exercises special influence upon nervous conditions depending upon disorders of the female organs; relieves pain, etc." Prof. John King in the AMERICAN DISPENSARY, says of Black Cohosh root: "This is a very active, powerful and useful remedy." "Plays a very important part in diseases of women; in the painful conditions incident to womanhood. In dysmenorrhea it is surpassed by no other drug, being of greatest utility in irritable and congestive conditions." "Its action is slow, but its effects are permanent." "For headache, whether congestive or from neuralgia, or dysmenorrhea it is promptly curative."

Dr. John Fyfe, of Saginaw, Conn., Editor of the Department of Therapeutics in THE ELECTRIC REVIEW says of Unicorn root (Helleborus Dioica), one of the chief ingredients of Dr. Pierce's Favorite Prescription: "A remedy which invariably acts as a uterine (womb) invigorator and always favors a condition which makes for normal activity of the entire reproductive system, cannot fail to be of great usefulness and of the utmost importance to the general practitioner of medicine."

"In Helleborus we have a medication which more fully answers the above purposes than any other drug with which I am acquainted. In the treatment of diseases peculiar to women it is seldom that a case is seen which does not present some indication for this remedial agent."

If You Read This

It will be to learn that the leading medical writers and teachers of all the several schools of practice recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultant, as bronchial, throat and lung disease (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherry root, Golden Seal root, Bloodroot, Stone root, Mastic tree root, and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hays, of the Univ. of Pa.; Prof. Vinay Ellingwood, M. D., of Bennett Med. College, Chicago; Prof. John King, M. D., of Cincinnati; Prof. John A. Scudder, M. D., of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice. The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes, that has any such professional endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous, harmful or habit-forming drugs and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and is a most useful agent in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native medicinal roots and is safe and reliable. A booklet of extracts from eminent medical authorities, endorsing its ingredients mailed free on request. Address Dr. E. V. Pierce, Buffalo, N. Y.

Parents do not seem to realize the great importance of curing nervousness in their children. They call in a doctor for a cough or a cold, but nervousness does not strike them as being serious enough. It is. A thin, nervous child rarely develops into a strong, healthy man or woman. More often nervous conditions become chronic and the child becomes a life-long, delicate, nervous invalid.
