NO CHERRIES TODAY

There were no cherries to distribute at the depot this morning. The shortage was an oversight among the growers no doubt, as each believed the other fellow would furnish the supply. The boosters were on hand to give the passengers the customary "hand-out" of cherries, but none could be given, in view of the fact that not a cherry was on hand. The growers in close proximity to the city should make it a point each day to notify the booster office relative to the cherry supply, and by getting in communication with Mr. Lavey, can arrange for supplying the fruit at a future time. Who is coming to the front with tomorrow's supply?

COSTLY FIRE IN WHEAT FIELD.

Over a Thousand Sacks of Grain Destroyed Thursday Night.

Damage to the amount of about \$5000 was done last night by fire on the W. A. Raymond ranch four miles northeast of town, says the Walla Walla Union. Two settings of threshed wheat comprising more than 1000 sacks, derrick wagon and feed racks of the threshing outfit of George McGuire were destroyed.

The fire resulted from an explosion caused by smut, and the engine and water wagon were the only part of the outfit saved. Some standing grain was destroyed, but not much. Hard work on the part of the threshing crew and the residents of that part of the country was all that saved much more grain from being devoured by the flames.

Reached Hatchery Friday.

H. A. Brandon, engineer in charge of the extension work of the O. R. & N. from this city to Joseph, was up from headquarters at the mouth of the Wallowa river Thursday and informed an Elgin Recorder reporter that the tracklaying gang would reach the fish hatchery Friday. At present the gang is laying 3000 feet of track daily, but this will be greatly increased as soon as the Wallowa is crossed at the present wagon road bridge, when track-laying machines will be pressed into service. Ballasting and surfacing gangs are following up and the track is being placed in good condition as rapidly as possible. Mr. Brandon estimates that it will take 45 days to reach Wallowa.

Street Cars Possible.

Along with the building of the Eagle Valley railway which will be under way by the middle of the coming month, there should be a practical effort put forth to give Baker City a street car system and an interurban line to Powder River valley, says the Democrat.

Nothing would do more to add to the commercial interests of Baker City or to benefit the farmers financially than an electric line traversing the valley, and giving the farmers quicker and easier transportation facilities to market.

As proof of the benefits accruing to a city by an interurban line, one need go no further to investigate than to Boise valley. And how Boise has grown! A few years ago Boise and Baker City were vying with each other in number of population. Now there is no rivalry, for Boise has far outstripped us. Why? By the public spirit of her people, and the carrying out of just such enterprises as we have alluded to, making the whole country for many miles around pay tribute to its greatness.

CARNIVAL IN SEPTEMBER.

Annual Flower Show Will Be Held September 3 or 10.

The annual flower carnival at Elgin, will be held either September 3 or 10. These dates were decided on at a regular meeting held by the Cemetery society yesterday afternoon. Committees are appointed and will soon be at work arranging the details of the event, which has every promise of being a grand success. The carnival last year was much more successful than had been expected, but it will be far eclipsed by the coming event, and there will be a great profusion of flowers, such as has never been seen in eastern Oregon. The climate and soil of this city seem espe-

If You Read This

It will be to learn that the leading medical writers and teachers of all the several schools of practice recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their results, as bronchial, throat and lung disease (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering or chronic cases it is especially efficacious in producing permanent cures. It contains Black Cherry bark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago; Prof. John King, M. D., of Cincinnati; Prof. John M. Scudder, M. D., of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes, that has any such professional endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous, harmful or narcotic-forming drugs and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful agent in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a glyceric extract of native medicinal roots and is safe and reliable.

A booklet of extracts from eminent medical authorities, endorsing its ingredients mailed free on request. Address Dr. E. V. Pierce, Buffalo, N. Y.

Stimulation Without Irritation.

In case of stomach and liver trouble the proper treatment is to stimulate these organs without irritating them. Orino Laxative Fruit Syrup aids digestion and stimulates the liver and bowels without irritating these organs like pills or ordinary cathartics. It does not nauseate or gripe and is mild and pleasant to take. A. T. Hill, druggist.

Notice of Filing Plans.

Notice is hereby given, that the approved plans of surveys of fractional sections 13, 14, 15, 16, 17 and 18, E½ and NW¼ Section 20, W½ and NE¼ Sec. 21, Townships 6 North, Range 44 E., and all of Township 4 North, Range 41, East Willamette meridian, have been received in this office. The above plans of surveys will be filed on Tuesday, the 15th day of September, 1908, at 9 a. m.

On and after that date this office will receive applications for the entry of lands in said townships.

Cured Hay Fever and Summer Cold.

A. J. Nusbaum, Batesville, Ind., writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." A. T. Hill, druggist.

Excellent Health Advice.

Mrs. M. M. Davison of No. 379 Gifford Ave., San Jose, Cal., says: "The worth of Electric Bitters as a general family remedy, for headache, biliousness and torpor of the liver and bowels is so pronounced that I am prompted to say a word in its favor, for the benefit of those seeking relief from such afflictions. There is more health for the digestive organs in a bottle of Electric Bitters than in any other remedy I know of." Sold under guarantee at Newlin's drug store, 50c.

Danger in a Cold

Because you have contracted ordinary colds and recovered from them without treatment of any kind, do not for a moment imagine that colds are not dangerous. Not only pneumonia, but also the infectious diseases such as diphtheria and scarlet fever start with a cold. The cold prepares the system for the reception and development of the germs of these diseases. Take our advice—cure your cold while you can.
