> Entire State is Watching With Much Interest What the Visit of John Young, Right-Hand Man of Bourne, -Was in La Grande Wednesday and in Wallowa Last Heard of -Refused to Disclose Purpose of Visit-Says Timber Business.

Portland, Aug. 17.-The Sunday

What is John C. Young, private sec retary to Senator Bourne, doing in Grant, Harney and adjoining counties? The appearance of Mr. Young in the interior countles has started the rumor that his mission is to bolster up the statement No. 1 republican members for the double purpose of perpetunting that doctrine and securing the election of Governor Chambe the senate. Anticipating that petitions would be circulated relieving statement No. 1 republican members of the legislature from voting for a democrat for senator, it is charged in political circles that Bourne's private secretary and confidential manager is working to counteract any such movement. It is further reported that if it becomes necessary to checkmate such a play he is making the necessary arrangements for circulating petitions among the voters, addressed to anti-statement members of the legislature and insisting that such legislators support the popular choice for senutor.

At any rate, those acquainted with the methods of Senator Bourne and his lieutenant aver that Young is not Oregon for his health. Neither is he there without the sanction of his chief. Just what his errand is, Young has not disclosed, except perhaps to a few of Bourne's trusted friends, but the object of his county-to-county canvass doubtless will levelop before hall. All visiting members are in- many days.

The gentleman to whom the Oregonian refers, wast last heard of in Wallowa county. About the middle of last week he visited La Grande, callof the city. He left Thursday for Wallowa county, saying he had a claim in that county which needed his at-Politically he had little to say, stating only that Jonathan Bourne would return to Oregon the first of fact that his boss is trying to make a hit with Taft. To those with whom he talked here, he did not disclose the real object of his visit to Union and Wallows counties.

He was scheduled to return to La Grande last Saturday, but if he did, no one here saw him. He might have come in on the Elgin train and went out on the delayed No. next month, and commented on the

The skin is not simply an outer covering of the body, but through its The skin is not simply an outer covering of the body, but through its thousands of porce and glands it performs the great and necessary work of regulating our temperatures, and also assists in disposing of the refuse and waste matters of the system by the constant evaporation that goes ou through these little tubes. To perform these duties the tissues and fibres which connect and surround the pores and glands must be continually nourished by pure blood. When from any cause the circulation becomes infected with impurities and humors, it loses its strengthening powers and begins to with impurities and humors, it loses its strengthening powers and begins to disease and irritate the delicate tissues, and produces Eczema, Acpe, Tetter, or some other itching, disfiguring skin trouble. S. S. eures skin diseases of every kind by going down into the circulation and neutralizing and removing the impurities and humors. It changes the quality of the blood from an acrid, fiery fluid to a cooling, health-producing stream, which, instead of tritating and inflaming the skin, cures and nourishes it by its soothing. healthful qualities. Salves, washes, lotions, etc., may be used for any temporary comfort or cleanliness they afford, but skin diseases cannot be cured until S. S. S. has purified the blood.
