SHERMAN NOTIFIED TODAY

(Continued from page 1.)

the artisan, the farmer, the miner and those engaged in transportation and trade; broadly speaking, those engaged in every pursuit and calling which our tariff directly or indirectly affects. During a statutory application of this principle, prosperity has abided with us. When a revenue tariff has been the law, adversity and want have been our portion. Our democratic brethren, whose memories are as short as their promises are frail, and who have always exhibited a lack of capacity to profit by experience, unmindful of the distress and destruction that arrived and departed with the last democratic administration declares in their platform that they favor such "immediate revision of schedules as may be necessary to restore the tariff to a revenue basis." A "revenue basis," "a tariff for revenue only," "ultimate free trade"—all have an identical meaning; that meaning being an assault upon American industries, an attack upon the American people, a lessening demand for the products of American soil and American toil; less work, less pay, less of the necessities and comforts of life. In the light of history, what issue of the campaign so vitally affects American citizens? Experience, that effective teacher—effective save with the one-man power now parading under the title of the democratic party—has taught the nation a valuable lesson and the result of the coming November election will once more prove the American people to be apt scholars. What the laborer of the land, skilled and unskilled, desires is the opportunity at all times to exchange his brain and brawn for good pay in money. A protective tariff and the gold standard, both now the existing achievements of the republican party, in spite of democratic opposition, give the laborer that opportunity.

The republican party believes in the equality of all men before the law; believes in granting labor's every request that does not seek to accord rights to one man denied to another. Fair-minded labor asks no more, no less, and approves the record of the republican party because of that party's acts.

I have helped to make my party's record in the enactment of the eight-hour law, the employers' liability act, the statutes to minimize the hazard of railroad employees, the child labor law for the District of Columbia and other enactments designed especially to improve the conditions of labor. I cannot hope to better state my position on injunctions than by a specific endorsement of Mr. Taft's Cincinnati declaration on that subject. That endorsement I make.

As a nation our duty compels that by every constitutional and reasonable means the material and educational condition of the colored race be advanced. This we owe to ourselves as well as to them. As the result of a course of events that can never be reversed, they are a part of our civilization; their prosperity is our prosperity; their debasement would be our misfortune. The republican party, therefore, will offer every encouragement to the thrift, industry and intelligence that will better their prospect of higher attainment.

I believe in the maintenance of such an army, the upbuilding of such a navy as will be the guarantee of the protection of American citizens and American interests everywhere, and an omen of peace; that at every exposed point we may be so fortified that no power on earth may be tempted to molest us. I believe in the restoration of the American merchant marine and in rendering whatever financial aid may be necessary to accomplish this purpose.

I approve the movement for the conservation of our natural resources; the fostering of friendly foreign relations; the enforcement of our civil service law, and the enactment of such statutes as will more securely and more effectively preserve the public health.

Our platform, as it should do, pledged adherence to the policies of President Roosevelt; promises to continue the work inaugurated during his administration; to insure to persons and property every proper safeguard and all necessary strengthening of administrative methods will be provided to furnish efficient inspection and supervision, and prompt righting of every injustice, discrimination and wrong.

I have not touched upon every plank of our splendid platform, but I reiterate my full and unqualified approval of its every promise.
