EXCURSION TO WALLOWA

JACK O'NEAL ARRANGES FOR EVENT SEPTEMBER 20.

Train Will Leave La Grande at 7 O'clock and Return the Same Night—Will Be the Banner Event of the Year—to Stop Frequently En Route to Permit Fishermen Dropping Off Anywhere—Low Rates for the Return Trip.

Contrary to the general belief yesterday, an excursion will be run to Wallowa town on September 20. This will inaugurate passenger service in that county and though the construction train's whistle has heretofore disturbed the quietude of that fertile section of Oregon, it remains for this proposed passenger train engine to inaugurate to usher in the new era for Wallowa county.

Jack O'Neal of the O. R. & N. passenger service, is in the city today making definite arrangements for the excursion which will undoubtedly be the banner event of the year, locally. The schedule is such that ample time will be allowed anglers to hunt or fish while the train is at Wallowa, and will also give the excursionists an opportunity of seeing the section of Wallowa county through which they pass. The train leaves here at 7 o'clock in the morning and will return the same night. The fare for the round trip will be \$1.75.

Several stops will be made en route and through the canyon. The fish hatchery, the Wallwa bridge and other places of beauty will be cause for some of the brief stops. This will permit anglers to leave the train, fish during the day, and catch the home-coming excursion again.

If sufficient advance notice is given, the officials, ample accommodations will be supplied. At this early date it appears that the event will be largely attended, as there are hundreds in La Grande who have never seen the wilds of Wallowa, and will jump at this opportunity of being one of the group to ride into Wallowa county on the first passenger train.

OREGON PRUNE CROP SHORT.

Authority on Oregon Fruit Says Prune Crop Has Been Cut in Two.

Portland, Sept. 7.—Secretary Williamson, of the state board of horticulture, returned yesterday from Oakland, Douglas county, where he had assisted the local fruitgrowers in forming an organization. He investigated fruit conditions in that part of southern Oregon, and found that the apple crop will be somewhat larger than last year and that the prune crop will reach 50 per cent of that of 1907.

"Prune growers there will do pretty well, this year, after all," he says, "as prices are considerably higher than last year. The crop of Oregon has been cut down one-half by the untimely frosts of last spring, and the yield of California will not be more than a third of what it was a year ago." "The apple yield of Douglas county is also very good this season, but the buyers are not so eager to load up as in the fall of 1907, when the panic caught them and they lost money. They prefer to get apples on consignment this season, instead of buying and taking chances of getting profit after the fruit is disposed of in the eastern markets.

"The fruitgrowers of Oakland and vicinity have organized for the purpose of selling their output to the best advantage, and they certainly have a splendid fruit country to work in. The tendency is to buy up large farms and cut them into 5 and 10-acre fruit tracts, and I judge there will be money in this for the promoters, who will assist in populating the country with practical fruitgrowers from the east and elsewhere."

Cured Hay Fever and Summer Cold.

A. J. Nusbaum, Batesville, Ind., writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." A. T. Hill, druggist.

INTEREST IN LAND OPENING.

Tract in Idaho to Be Opened for Sale.

Large number of letters that have been received by the Carey Irrigation & Power Co. relative to the opening of its 15,000 acres of land in Idaho under the Carey act, indicates that on October 12, the date of the formal opening, this entire stretch of fertile land, 20 miles along the Snake river, will be taken before the sun sets.

This property has the finest fruit soil in the northwest; an overplus of water from the Malad river; a permanent system of flumes and canals; a telephone service; free ferries across the Snake river; the main line of a transcontinental railroad, a townsite and, superior to all, the best soil, climate and market opportunity of any land that has been opened for settlement in the state of Idaho for many years.

The letters above referred to are from prospective settlers who signify their intention to be present on opening day. The choice of lands will be supervised by the state land board of Idaho and those who fail to draw favorable locations will receive back their entrance money. The Carey act allows 10 years for payment of water rights after which the entire system of irrigation comes into possession of the owners of the lands supplied by the water. Railroads have made special rates for the occasion and also arrangements for the accommodation of those who gather to take advantage of the opening.
