## Paint in the Fall

THE WEATHER is more settled then.

There is less dust, less heat, not so many rainy, cloudy days and the flies, bugs, etc., are gone.

THE LUMBER is drier after the summer's heat than after a winter's dampness.

The paint will take better hold of the wood and dry hard and smooth.

THE PAINTER is not so busy as during the "Spring rush," and can give the work better attention and allow more time for each coat to dry and harden.

THE PAINT is the essential feature at any time of the year

and should be carefully considered. "Hand Made" mixtures or cheap products are a waste of time and money.

THE PROTECTION is the primary object of painting and in the winter your house needs protection the most. "High Standard" paint not only gives the best but the longest protection of all paints.

Don't do any guessing—just insist on "High Standard" Paint—and there will be no regrets.

There are "Little Blue Flag" Paints and Varnishes for your house, barn, wagons, carriages, floors and wood-work. Let us explain to you.

**Political Day at Pendleton Fair.**  
George H. Curry is in Pendleton today attending the popular Umatilla-Morrow county fair, being held in that city. Governor Chamberlain is there, as are also many prominent political speakers of all parties. The Pendleton fair is being held in a large pavilion on Main street, the building extending one block east to Cottonwood, where the stock pens run north one block, with exit on Webb street. The fact that the fair is being held practically in the heart of the city is responsible for the enormous crowds which attend each day.
