BAKER TO PLAY SALEM HIGH.

Thanksgiving Game to Be Played With Capital City Aggregation.

Probably the biggest game of the season among high school football teams for the state is to be played in this city on Thanksgiving, the opposing teams being Salem and Baker high. Salem has one of the fastest teams in the valley and will put up flu lyasooog in. fully as good a game as did the Portland team on their visits to Baker. There is a possibility that this game may decide the championship of the state.

Another big game to be played in Baker is the game with Pendleton high on November 13, which promises to be the hardest game that the local team will play. A game with La Grande has also been scheduled for October 17.

The question of a coach has been one of vital interest to the boys here and Menzie McKim has been secured to guide their destiny. He is the fastest quarter who guided the team to victory for three years and the boys feel confident that he will make an excellent coach. James Nichols, who has coached for three years, will assist in the training, as will also Henry McKinney, one of the stars of the U. of O. team. With the excellent coaches and the fine material the Baker goal should never be crossed.

"NINETY-THREE."

The Story of a Famous Name and How it Originated.

The foremost dermatologist in France, Dr. Sabourand of Paris, and Prof. Unng, Hamburg, Germany, discovered that a microbe caused baldness. To prove their theory, Dr. Sabourand infected a guinea pig with some of these microbes, and in a comparatively short time the animal was denuded of every hair that was on its body.

Some eminent histologists and chemists were employed by the United Drug Co., Boston, Mass., to find the means of destroying these microbes and a remedy that would create a new growth of hair where the hair roots had not been entirely destroyed.

After months of study, experimenting and research work, they discovered what they claimed would do what was demanded. To unquestionably prove their theory, 100 leading druggists, located in as many different cities, were requested to each furnish the name of a responsible person suffering from falling hair and baldness. Each of these 100 persons were furnished three bottles of the preparation with a request to give it a thorough trial and report results.

Five of these persons failed to report. Two declared they had been bald for years; that their hair follicles had long been closed and their scalps were smooth and glossy.

Ninety-three of the 100 sent in enthusiastic reports, stated that they were delighted with the hair-restoring qualities of the preparation, and expressed sincere thanks for the wonderful benefits brought about by its use. In commemoration of this, the new preparation was named Rexall "93" Hair Tonic.

We sell this remedy with the distinct understanding that it is free of cost to the user in every case where it does not completely remove dandruff, stimulate the hair follicles, revitalize the hair roots, stop the hair from falling out, grow new hair and make the scalp free from irritation.

Rexall "93" Hair Tonic comes in two sizes; prices, 50c and \$1.00. A. T. Hill.
