## SERVIANS DRIVE KING TO ACTION

### BALKAN STATES ABOUT TO BE TORN FROM WITHIN.

Agitators Accuse Officials and Ruler of Being Cowards in Not Declaring War Against Austria—Great Mobs Throng Capital and Swarm Parliament Building—"Give Us Austria's Blood" is Cry From Thousand Throats in the Mob.

Belgrade, Serbia, Oct. 18.—Serbia must declare war against Austria or be torn to pieces by strife within her boundaries. That is the situation today. Mobs are thronging the cities, reinforced by thousands and thousands who gathered at the royal palace. Agitators are calling the Servian officials traitors and cowards.

A great crowd is flocking about the parliament building and everywhere there is a demand for war. "We want the blood of Austria" is the cry. "Are Servians cowards that they hesitate to defend the honor of their nation?" is a question often put.

Much talk against King Peter is being indulged in and he is bitterly criticized. A mob was raging through the streets after midnight and at dawn the demonstration was resumed. The heads of government departments were called together with King Peter and his advisors. The king's hold on the throne is insecure. It is believed he will be forced to declare war.

Officials Pass the Line.—London, Oct. 19.—M. Iswolsky, the Russian foreign minister, today added a new sensation to the Balkan imbroglio by issuing a statement giving the lie to Foreign Minister Vonaerenthal of Austria. He says Von Aerenthal lied when he said Iswolsky knew about Austria's plan to annex Herzegovina and Bosnia long ago.

Iswolsky resented bitterly the inference that he, as a representative of Russia, was aware of the scheme in advance. He intimated it was an effort to put Russia in a bad light before the other powers.

Stewart Must Go.—Washington, D. C., Oct. 10.—The special retiring board of the army this afternoon recommended to Roosevelt that Col. W. F. Stewart of Fort Grant, be retired for disability.

## CIVIL SUIT IS FACING WILLIE

### HEARST SAID TO BE INDEBTED \$10,000 FOR AUTO HIRE

civil suit is facing Willie San Francisco, Oct. 10.—Within five days William Randolph Hearst must answer summons in a suit against him for \$10,000 for automobile hire. The action was brought by Sol J. Levy, who alleges he removed valuable papers and files from the Examiner's office during the fire of 1906. The autos were used in transporting the Examiner's property. Hearst was served personally last night.

Royal Lady to Take Flight.—Lemans, France, Oct. 10.—Queen Margherita, the Italian king's mother, is preparing to make a flight with Wilbur Wright, in his aeroplane. She was expected to take her after she had begged him.

Auto Driver's Narrow Escape.—Philadelphia, Oct. 10.—Michener, a daring driver of a Lozier car in the auto races on an eight-mile course at Fairmont track today escaped death by a hair's breadth, when his big machine turned turtle while going at a terrific speed. The spectators were horrified when the machine went over in a heap of dust. When the dust cleared Michener was standing up, his chin bleeding, but otherwise unhurt.

Across Continent to Vote.—Los Angeles, Oct. 10.—Henry E. Huntington, the trolley king, has arranged his affairs preparatory to starting across the continent tomorrow to vote for Taft. He will go to Oneonta, New York, his voting home. He is a presidential elector of New York.

## TEN DAYS MORE TO REGISTER IN UNION COUNTY REPUBLICANS WILL STAND BY TAFT

With only 10 days more in which to register for the presidential election November 3, Union county prospective voters are paying more attention to that urgent duty and are rapidly swelling the list of registered voters. The books close October 26, and then, if the citizen has not his name on the books, he must be sworn in by freeholders, which is a disagreeable requirement.

In conjunction with the regular work of taking registrations, the employees about the clerk's office have taken it upon themselves in the past and will continue to do so until the end, to ascertain by an oral statement, what the feeling is among the republicans as to the popularity of the party's choice at Chicago. The pleasing outcome of that effort is that thus far there is only one republican out of a large number who will not vote for Taft. Otherwise it is, "You bet I am a Taft man," is said in more or less enthusiasm than greets questions as to the popularity of "Big Bill" with the rank and file of his party in Union county. The effort has a broader meaning than most straw votes of a similar nature.

"Moving day" on Adams avenue will come about the 15th, inst., when Adcock & Fritts, who hold the key to the situation, move into their new quarters in the Slater building, on Jefferson avenue. That will allow the other merchants on Adams avenue to make their desired changes.

A new deal was culminated last night, involving an Adams avenue business man, when John O'Connell, at present in the cigar business in the postoffice building, purchased the Cull Smith property, corner Depot and Jefferson. ## STOCK EXCHANGE BLEEDS LABORERS

### BITTER EXPOSE OF NEW YORK'S STOCK MARKETS

New York, Oct. 10.—Bitterly denouncing the New York stock exchange as a vampire sucking the blood from the hearts of the country's toilers, E. F. Buchanan, the organizer and manager of the defunct brokerage firm of A. O. Brown & Co., in a remarkable interview today, reveals the methods of what he terms the "great gambling den." He said:

"The 'wash sales' campaign that drove my firm from the exchange is duplicated daily by brokers of good standing. I am glad the firm's failure took place, as I am now in a business where it is not a failure to be honest, and where it is not an irreparable disaster to be human. Without the New York stock exchange it would be impossible for the country to have a financial panic. Spread the alarm from Maine to California and abolish the ticker and the selling of stock on margin, and then much will be done to correct the evil."

### THE MORRISON CASE. Jury Excused Until Monday Morning—Important Ruling.

At 11 o'clock this morning the jury in the case of the State vs. P. A. McDonald, administrator of the estate of John Morrison, was excused until Monday morning.

It was expected that this case would not occupy the attention of the court to exceed two days, but the entire week has been so engaged and will probably last two days more.

Judge Knowles made an important ruling today in denying a motion which if he finally holds thus will relieve Mr. McDonald from all financial responsibility regarding the personal property thus far distributed among the supposed heirs. The court holding that his acts as administrator were regular. If this ruling becomes final Mr. McDonald will not be personally liable even if the fact is sustained that Mr. Morrison was an illegitimate child. The above ruling does not apply to the real estate involved and this portion may be executed to the state and not involve the personal property.

## GENERAL MOVE ON PROHIBITION

### BIG EFFORT TO STOP GROWTH OF PROHIBITION

Berlin, Oct. 10.—A world-wide warfare on the prohibition movement was launched today when the International Jubilee congress of the Brewers' College and Institute for Experimental Research convened in Berlin today. Brewing experts from the whole world are in attendance, and scores of distinguished physicians and scientists will present papers tending to prove that the moderate use of beer preserves the health and is a positive good instead of being responsible for the evils attributed to its use by the prohibitionists. The most complete exposition of brewery machinery, processes and products ever shown, was opened today in connection with the congress. The German government has given this congress its official patronage by permitting its diplomatic representatives abroad to extend invitations to foreign participants.

One of the principal features will be an international jury to award prizes on international exhibits of barley and hops. Dr. R. Wahl of Chicago, represents the United States.
