

Excellent Health Advice.
Mrs. M. M. Davidson of No. 279 Gifford Ave., San Jose, Cal., says: "The worth of Electric Bitters as a general family remedy, for headache, biliousness and torpor of the liver and bowels is so pronounced that I am prompted to say a word in its favor, for the benefit of those seeking relief from such afflictions. There is more health for the digestive organs in a bottle of Electric Bitters than in any other remedy I know of." Sold under guarantee at Newlin's drug store. 50c.

Cured Hay Fever and Summer Cold.
A. J. Nysbaum, Batesville, Ind., writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed to only aggravate my case. Fortunately I insisted upon having Foley's Honey and Tar and it quickly cured me. My wife has since used Foley's Honey and Tar with the same success." A. T. Hill, druggist.

She Likes Good Things.
Mrs. Charles E. Smith of West Franklin, Me., says: "I like good things and have adopted Dr. King's New Life Pills as our family laxative medicine, because they are good and do their work without making a fuss about it." These painless purifiers sold at Newlin's drug store. 25c.

Snake River Activity

Baker City, Oct. 19.—E. P. Farrell of Homestead, is in the city today and says that there is great activity on the Snake river. At present there is about 20 miles of track laid out from Huntington and within a short time the rails will be laid to Brownlee. The Oxbow company has a good wagon road from Brownlee to Copperfield, and will haul their machinery, provisions and cement over this line. A large amount of cement is used by the company and many teams are kept busy hauling it in.

The company has four acres of ground in Copperfield and this land is covered with shanties for workmen. There is a large dining hall that will seat 300 people and several cooks are kept busy.

The Oxbow company will soon start its sawmill, and things will begin to hum. The railroad people are pushing the work with great vigor and of the 2130 feet of tunnel to be excavated, more than 1000 feet has been completed. Work is being pushed beyond the tunnel so that when the big hole is opened the track will be ready to connect on both sides. There are three tunnels between the mouth of Powder river and Pine creek and a short tunnel between Pine creek and Homestead.

Baggageman Is Wounded

Carelessness in carrying a loaded weapon in a trunk which might have resulted fatally yesterday was the cause of an accident at the O. R. & N. depot in which Kenneth Hannum, baggageman, was shot by a ball from a 45-caliber revolver, says the Pendleton East Oregonian. The ball grazed the under side of Hannum's left arm, cutting a gash several inches in length and bruised the left side of his body by the force of the impact.

The accident occurred just after No. 2 had pulled east. Hannum and Albert Kearney were transferring the trunk in which the weapon was packed, from the baggage car of the Walla Walla train, to the truck, when the weapon was discharged by the jar. The ball tore through the metal protecting frame of the heavy leather trunk and through the big metal hinge the soft bullet being twisted to a shapeless, jagged mass that tore the flesh of the young man's arm. It then entered the car where it was found.

The discharge of the gun set fire to the contents of the trunk, which was broken open and the fire extinguished.

New Rates Established

The railroad officials at a joint meeting with representatives of the four towns last Monday fixed the freight rates for the Joseph branch. In general, the rates were fixed on a mileage basis; thus Joseph rates on sugar, salt, etc., are one cent higher than Enterprise on a 100-lb sack, while the difference between Enterprise and the lower towns is proportionately greater according to distance. On outgoing commodities, there is a difference of \$1 per carload between Joseph and Enterprise, so small as to amount to nothing. The wool rate has not been settled, but if the same basis is used instead of a common rate from all towns, the difference will be but two ten-thousandths of 1 cent per lb which, again, is so small that it will amount to nothing.

When you design but to speak you may say a great deal.

At The Playhouses.

The Pastime's Attractions.
Catchy songs and excellent films are what combine to entertain the large crowds at the Pastime theater this week. The first performance of the new program last evening was well attended and though the rain fell and the winds blew, the patrons were well repaid. Comedy and pathos intermingle with lightning-like rapidity while the films are run over the screen. The audience screams one minute and sobs the next—in a way that is bound to hold attention and bring the patrons back the next time. Study the house ad in this issue and make selections of what you think you will like. When you get there you will find to your surprise that all numbers are excellent. Robert Burton's songs are making big hits this week, too.

The Scenic.
As predicted in The Observer last evening the vaudeville attractions and the funny films entertained to the limit last evening at The Scenic. The numbers are of a high class, such as please every one. The moving picture portion of the present program will be given for the last time this evening and a good change is in store for tomorrow.

Fruit Peddlers Warned.

"This morning I caught a fellow on the streets of this city peddling fruit that was covered with San Jose scale and codlin moth," said Special Horticultural Inspector Joe Brown today. "I want to say," he continued, "that if I find any more people peddling fruit that is in any manner unlawful, I will see that they are prosecuted to the full extent of the law. This thing has got to stop."

"From a business standpoint it seems strange to me that any one would attempt to sell diseased fruit on the streets because the seller comes in contact with his own first-class fruit and must sell it in competition with that fruit. He sells his good fruit to the merchants for a fair price and then tries to sell his stuff to customers of the merchants."

"This forces the merchants to sell in competition with the peddler's trash. Then the farmer complains because the merchants will not pay better prices for fruit. Trafficking with infected fruit is dangerous business, and it will not be tolerated.—Yakima Republic.

Houses are made to live in more than to look at; therefore, let use be preferred before uniformity, except where both may be had.—Bacon.
