#### Greek vs. Greek.

Justice Stewart's court has been occupied a portion of two days over the supposed rights of two Greeks. It seems that one sold the other his peasant wagon and promised to quit business for two years. The plaintiff alleges that he is now a partner in an opposition wagon and sues for damages to the extent of \$220.

#### Birth Record.

Born, in this city Thursday, November 26, to Mr. and Mrs. Jack Brittain, a son.

Some people seem to imagine that a receipt for pew rent is a through ticket to heaven.

### TEST WIRES TOMORROW

Tomorrow night La Grande will be electrically lighted with "juice" from the power plant at Rock creek, 28 miles from Union. This is with the provision that the lines from Union to Rock creek, which were completed today, are perfectly built and properly connected. The last of the insulators were attached this afternoon, and the long line that leads through dense forests, over high mountains and down steep hills, is ready for use. If the tentative trial tonight is not satisfactory to the company, it will be a surprise for the work was done carefully, from setting of poles to hooking on at Union. If for some reason the Rock creek lines are not properly rigged up, Morgan Lake light will be used tomorrow night, but during the experiments the city itself will not know that the experiment is going on.

The construction of this emergency line has been classed as an engineering feat of no mean ability. The work was rushed to meet a possible early frost that would incapacitate the power plant that now supplies the electricity for the cities of Union, Cove and La Grande. The new light is run through the wire on a high voltage, that will give La Grande as brilliant a light as the now efficient system is providing. Few cities in this section of the northwest have a more uniform voltage than that which runs through the wires here.

### WORRY OVER WOOLEN MILL

Pendleton, Nov. 27.—Instead of this afternoon the woolen mill meeting will be held the first of the week, and at that time J. P. Wilbur, prospective manager of the mill, will be here from Union for the purpose of consulting with those interested in the movement. Word was received here from Mr. Wilbur this morning. He has always been an earnest advocate of the local mill and has shown a disposition to aid in rejuvenating the industry regardless of who has the management. He has absolute faith in the ability of the

mill to make money if properly conducted.

This afternoon Mr. Wilbur was requested to come to Pendleton again for the purpose of meeting with the prospective stockholders. He will be here the first of the week and at that time a meeting of those interested in the matter will be held in the association rooms.

During the past few days there has been a manifest revival of interest in the subject of the woolen mill. As a result those behind the movement are very hopeful of carrying out the plans for a few weeks ago.

Also several new people have manifested an inclination to go into the company and it is believed that sufficient capital will be forthcoming for the enterprise.

At the present time two committees are at work, one to negotiate with the owners of the mill, and one to secure the remainder of the capital needed.
