A Sprained Ankle.
As a rule a man will feel well satisfied if he can hobble around on crutches in two or three weeks after spraining his ankle, and it is often two or three months before he is fully recovered. This is an unnecessary loss of time, as by applying Chamberlain's Liniment, as directed, a cure may as a rule be effected less than one week's time, and in many cases within three days. Sold by all good dealers.

Pendleton, Jan. 28.—(Special.)—Regular train service over the Northern Pacific between Pendleton and Pasco was resumed today. The blockade which was caused by floods has existed for 10 days, completely obstructing all traffic.

The Northern Pacific was a heavy sufferer in the floods. On the Pasco-Walla Walla branch the line was badly washed and had only now been repaired. The North Bank to Portland was washed out at Grand Dalles, and the Pendleton-Pasco line was badly damaged and blocked by the floods, but the damage was largely between Helix and Pasco.

During the early part of the blockade it was impossible even to get construction trains to the washouts, but on Saturday last the assistant superintendent got a work train with steam shovel and about 75 men on the line between Helix and Pasco with the result that their work is practically completed. Another crew of men was put on between this city and Helix to finish repairs.
