

PRACTICAL EXAMPLES REGARDING THE GLOBE-WERNICKE SECTIONAL BOOK CASES

See what those in position to know
have to say

"WOULD HAVE LOST"

"Had my library not been incased in a Globe-Wernecke sectional book case kind friends would never have been able to have removed it at the time my home burned. Even if it had been possible to have taken the books out the weather was such that every book would have been ruined, as it was I never lost a volume."

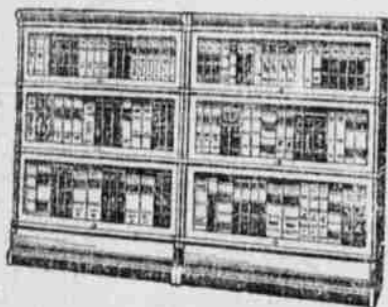

F. S. IVANHOE,
Dist. Atty. 10 Jud. Dist.

"SAVED MY BOOKS"

"I attribute the fact that my entire library was not lost to the fact that it was held in a sectional book case. On account of this, willing hands were able to carry out each section intact and not a book was destroyed or lost."

DR. N. MOLITOR

We would be pleased to have you call and allow us to show and explain the merits of the Globe-Wernecke Sectional Book Case.

59 TRUE BILLS FOUND

Little more is known today of what and who are included in the gigantic batch of grand jury indictments filed Saturday. After the first batch of 28 were filed last Saturday morning, another grand jury was turned out and filed late in the evening of the same day. With what had already been turned in and what came in with the final report, a total of 59 true bills and two not true bills were reported. In many respects, in fact all, the jury was a remarkable one. In its report appended herewith, the jury remarks that it is a waste of time to recommend too many repairs and changes as the recommendations are seldom complied with. For the length of time in session and the business to report, the jury has set a new mark. It is not yet discharged, but merely adjourned. Following is the report in full:

Grand Jury Report.

We think it necessary that heavy netting such as is usually used for that purpose, should be placed over all windows having communication with the jail, and the windows in the vaults of the recorder's and clerk's offices should be protected in the same manner.

We would suggest that the janitor be supplied with hose or pipe to facilitate washing out the boiler.

We also recommend that a hose be placed in the jail corridor that can be used for fire protection in case it were needed. A two-inch pipe and a hydrant was provided for that purpose when the building was built. A hose in time might save the building and possibly the lives of prisoners who might be in jail.

The ceilings in several rooms show there are leaky places in the roof. Any private owner who has used a building five years would consider it time to mend and paint the roof.

In inspecting the jail cells the grand jury saw where a crazy man had attempted to beat out his brains, blood spurting over the wall, making a horrible picture. In the interest of humanity we suggest that a cell be padded in which the sheriff could confine cases of this kind.

We have made the usual tour of inspection of the county offices. They all seem to be kept in a business-like manner. We were shown all of the courtesies usually shown a grand jury on these occasions, and we notice from the records that the indebtedness of the county is being reduced materially every year, so it looks as if about one more year after this Union county should be out of debt, unless something unforeseen and out of the usual order of things should happen.

We have several recommendations we would like to make, but we have noticed that very little attention has been paid to recommendations made by grand juries in the past, so we feel that it is a waste of time to make recommendations we have no power to enforce.

We have reported 59 true bills and two not true bills, and ask that you may be allowed to adjourn from time to time as the court business.

W. H. BOHNENKAMP,
Foreman.

INTEREST IN GUN CLUBS

Added interest is shown in the local gun club and its work. Yesterday while a cold wind was blowing and weather disagreeable, more than 15 nimrod cracks were out on the range and took in all the pleasures at hand. Haddock and Conrad were easily the highest shots, but near them were Chase Bohnenkamp and Nate Zweifel. The score book shows that new faces will appear in the club hereafter.

The shoot yesterday was only a special order for this afternoon, when the whole Normal school matter will be discussed in the senate. The indications are that all three schools will get appropriations as recommended by the board.

S. C. Spencer came up this afternoon from Elgin, to attend circuit court.

FOUND—A suit case on the road near Moss chapel. Owner may recover same by calling at this office and paying for this notice.

BIG SUIT COMMENCED

Circuit court is engaged today in the case of A. J. Warren against the Geo. Palmer Lumber company, wherein the plaintiff is suing for \$25,000 damages for injuries received last summer while working in the yards of the company. J. D. Sluder is attorney for the plaintiff, and C. A. Johns of Baker City, and C. H. Finn are representing the defense.

Same Name and Charge.

The next cases to follow are state cases wherein both defendants are of the same name and charged for similar offenses, the larceny of an overcoat. The first case, unless the schedule is changed, is that of Fred Maxwell, charged with stealing an overcoat from the front of the Golden Rule store, and the other is Tom Maxwell, for the theft of an overcoat from P. H. Rogers, who has rooms on Fir street. The defendants are not related.

S.S.S. DRIVES OUT RHEUMATISM

Rheumatism is in reality an internal inflammation—a diseased condition of the blood cells which supply the nourishment and strength necessary to sustain our bodies. Uric acid, an irritating, inflammatory accumulation gets into the circulation because of physical irregularities, and then instead of nourishing and invigorating the body, the blood irritates and inflames the different nerves, tissues, muscles and joints, because of its impure, acid condition. The pains and aches and other disagreeable and dangerous symptoms of Rheumatism can never be permanently cured until every particle of the cause is driven from the blood. S. S. S. does this because it is a perfect blood purifier. It goes down to the very bottom of the trouble, purifies and cleanses the circulation, invigorates the body, and completely drives Rheumatism from the system. Plasters, liniments, soothing lotions, etc., may be used for the temporary relief and comfort they bring, but a cure cannot be effected until S. S. S. has removed the cause. It frees the blood of every impurity and makes it a rich, health sustaining fluid, to bring permanent relief and comfort to those who suffer with Rheumatism. Book on Rheumatism and any medical advice free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA.

her sister, Mrs. John Goodell, who resides at Salem, stating that her son, Gordon Goodell, had succumbed to the ravages of consumption, at the family home in that city this morning at 2 o'clock. The young man was nearly 20 years of age and had suffered from that dreaded disease for the past several years. The family formerly resided in Alaska, where the father, Hon. John Goodell, was United States commissioner for a number of years, but something over a year ago the doctors advised that if Gordon was taken to a milder climate he might be able to conquer the disease.

Many La Grande people will remember them. The remains will be taken to Grants Pass for interment in the family lot, where two sisters are already resting.

OLD HOTEL DOOMED.

Famous Auditorium Hotel in Windy City Dying Out.

Chicago, Feb. 15.—The Auditorium hotel, the most famous hostelry in the middle west, will pass out of existence on September 30 next.

Manager Shaffer said today that the hotel, which is across the street from the new Auditorium Annex, has not paid expenses since the annex was built. The latter got the bulk of the fashionable patronage. The old hotel has been running since 1890.
