A Common Cold. We claim that if catching cold could be avoided some of the most dangerous and fatal diseases would never be heard of. A cold often forms a culture bed for germs of infectious diseases. Consumption, pneumonia, diphtheria and scarlet fever, four of the most dangerous and fatal diseases, are of this class. The culture bed formed by the cold favors the development of the germs of these diseases, that would not otherwise find lodgment. There is little danger, however, of any of these diseases being contracted when a good expectorant cough medicine like Chamberlain's Cough Remedy is used. It cleans out these culture beds that favor the development of the germs of these diseases. That is why this remedy has proved so universally successful in preventing pneumonia. It not only cures your cold quickly, but minimizes the risk of contracting these dangerous diseases. For sale by all good dealers.

For That Terrible Itching. Eczema, tetter and salt rheum keep their victims in perpetual torment. The application of Chamberlain's Salve will instantly allay this itching and many cases have been cured by its use. For sale by all good dealers.

## VALDEMAR TAKES CAKE

The champion prize fat boy of Oregon was in Portland today. He came all the way from Summerville to see how the funny pictures in the Sunday Journal are made, says the Portland Journal. He is Valdemar Rinehart, 8 years old, and weighs 110 pounds. "Never had a sick day in his life," said his father, D. C. Rinehart, a prominent Summerville merchant. "Two years ago he was exactly as broad as he was long. He is getting taller now, but he still holds the record for size and quick growth. Ever since he was old enough to be interested in anything he has been looking at the pictures in the Sunday Journal, which, by the way, is one of our household necessities. "When I had to come to Portland as a witness before the grand jury, he begged me to take him along with me to the place where the funny pictures are made." Mr. Rinehart and his son are guests at the Imperial.
