I haven't much faith in the man
who complains
Of the work he has chosen to
do;
He's lazy, or else he's deficient
in brains,
and maybe, a hypocrite, too.
He's likely to cheat and he's
likely to rob;
Away with the man who finds
fault with his job.

But give me the man with the
sun in his face,
And the shadows all dancing
behind;
Who can meet his reverses with
calmness and grace,
And never forget to be kind;
For whether he's wielding a
scepter or swab,
I have faith in the man who's
in love with his job.
—Selected.

The Alaska-Yukon-Pacific exposition will stimulate an immense amount of advertising, relative to the Pacific northwest. Many of the eastern railroads are issuing thousands of reams of descriptive literature, picturing the conditions of the west from every phase. This, in addition to what scores of counties and localities are doing, will soon wipe out the glamor, ignorance and superstition that has hovered over the Pacific coast in the past, and the commercial interests and people generally will soon give us the recognition that we deserve. No one who has ever studied the conditions of the Atlantic coast with the Pacific, fails to recognize the fact that the natural and climatic relation are such that the Pacific coast can and in time will sustain a greater population than the Atlantic.

Much has been said and written regarding the power of Speaker Cannon. We predict that before congress gets through with the present tariff bill, that the people will change their minds and begin to see the necessity of power, when rightly conducted. The entire business world in many lines will remain inactive until the tariff bill is settled one way or the other. The menace of uncertain schedules is more disastrous than whether the schedule is high or low. The standpatters and obstructionists would be willing to forestall final action for months and months to secure their special interests and unless the speaker has authority to over-ride such influences at the proper time, justice has been and doubtless will be overridden in the name of "liberty."

This is the age of electric roads. The Willamette valley is making great development by the extension of such roads. The Observer has been of the opinion for several years that it would be possible to co-operate with Walla Walla and secure an electric road from La Grande along the foothills to Summerville, thence across the mountains to Milton or Weston. This would develop our own valley, practically extending Fruitdale all the way to Summerville, would make a summer resort of Bingham Springs, tap a large wood and lumber district and would improve Grande Ronde and Walla Walla valleys. The several interests are such that we firmly believe enough encouragement could be given capital that would accomplish the suggestion.

The proposed irrigation scheme in Rogue River valley, if perfected, as it undoubtedly will be, as the initial investment is small, not exceeding $25 per acre, will change the entire map of Jackson county, and Medford will become a city of 15,000 within the next decade. Water is the factor of permanent growth anywhere.

It begins to look very much as if the citizens were justified in recalling Mayor Harper of Los Angeles. Evidence so far presented indicates that the southern city of California is graft ridden and rotten to the core.

NO ACTION ON CHARTER KNOT

COUNCIL AWAITS DEFINITE DECISION OF ATTORNEY.

Meyers Chosen President of Council—List of Nominees Reported by the Mayor.

No action was taken last evening at the council meeting for submitting the charter to the voters, and none will be until the attorney for the American Light & Water company makes his wishes known in a definite form.

The monthly bills were allowed and Councilman F. L. Meyers was chosen president of the council, to preside in the absence of the mayor.

An ordinance was passed making more specific the rights of water users and after the routine work was disposed of Mayor Hall announced that in compliance with the requirements of the new charter it was his duty to file his list of nominees for the various appointive positions and that after filing the list with the recorder he would retire in order to give the council an opportunity to freely discuss and elect or reject the nominations. The council then went into executive session and asked all visitors to retire for a few moments and when the doors were once again opened it was announced the following positions had been selected:

Water superintendent—H. C. Gilman.
City Attorney—J. F. Baker.
City physician—Dr. G. L. Biggers.
Night patrol—John Walden.
Poundmaster—J. W. Black.
City scavenger—Ed Lovely.

GOOD CROWDS ARE ASSURED

MASS MEETING SET FOR 11 O'CLOCK AT THE STEWARD.

Apparent That Next Saturday Will Find Scores of Subscribers Here to Attend Organization Meeting.

That good crowds will attend the Saturday mass meeting in the Steward opera house when the first actual organization of subscribers to the Meadow Brook irrigation project will be made, seems to be a foregone conclusion. Irrigation is the chief theme among farmers and business men alike of the entire valley. With anything like favorable weather, the day will see scores here to attend the meeting.

The meeting will be called at 11 o'clock and continue through the afternoon. There will be a great volume of work to transact and the early hour has been decided upon as the most suitable one for all concerned. Farmers will have an opportunity to reach here in time to attend the morning session and will be able to do their Saturday shoppin gand attend the afternoon meeting, too.

ZELAYA MUST BE OBEDIENT

(Continued from page 1.)

Zelaya of Nicaragua, today received from Secretary Knox, instructions making it plain that the Nicaraguan army must be disbanded immediately, and the Emory claim settled without delay. The Knox action followed a conference yesterday afternoon between representatives of the Central American republics, the Mexican minister and Secretary Knox. The latter will make it plain the new administration will not tolerate any further disturbances in Central America.

LUMBERMEN PAY TAXES.

Believed Long Litigation is Ended Over Wallowa County Taxes.

The Palmer, Crossett and Grande Ronde lumber companies, owners of big tracts of timber in this county, who appealed to the circuit court the $1000 assessment per quarter made by ex-Assessor Pace and confirmed by the equalization board, have paid their taxes in full without protest, which action is taken to mean the suits will probably be dropped, says the News-Record today.

Monday was the last day on which the 3 per cent rebate was given for prepayment of taxes. Deputy Sheriff Crow says the number of receipts to this date is about the same as last year. Sheriff Marvin and Deputy Crow are digging into the work from early morning till dark, keeping up with the payments. No penalty is added if half your tax is paid on or before Monday, April 6. The sheriff has made one turn-over of $13,214.09 to Treasurer Bell.

ECZEMA CURABLE? PROVEN! Attorney at Moline, Ill., Convinced by Oil of Wintergreen Compound.

There is nothing that will convince a lawyer, except evidence.

Now, here is some rather startling evidence of a simple home cure for eczema which convinced one lawyer, F. C. Entriken, attroney at Moline, Ill. He tells how oil of wintergreen compound mixed with thymol and glycerine, as in D. D. D. Prescription, cured him in thirty days after thirty-two years of suffering.

"For 32 years," writes Attorney Entriken, "I was troubled with eczema, scabs all over my face, body and head. I could run a hair brush over my body and the floor would be covered with scales enough to fill a basket. I tried everything—salves, internal medicine, X-ray—all without result.

"Just a month ago I was induced to try D. D. D. Prescription. The itch was relieved instantly; so I continued. It is just a month now and I am completely cured. I have not a particle of itch and the scales have dropped off."

"I can only say again, Cure Discovered. I am now starting all eczema sufferers on the right track."

Cure after cure has been brought to our attention and always that instant relief from the awful itch. Newlin Drug Co.

SIREN WAFERS DEVELOP THE BUST

SHE'S A QUEEN! SHE'S A SIREN! is an expression that is always heard at sight of a well developed woman. If you are flat-chested, with BUST undeveloped, a srawny neck, thin, lead arms—remark will never be applied to you. "SIREN" wafers will make you beautiful, bewitching. They DEVELOP THE BUST in a week from 3 to 6 inches and produce a fine, firm, voluptuous bosom. They fill out the hollow places, make the arms handsome and well modeled and the neck and shoulders shapely and of perfect contour.

Send for a bottle today and you'll be pleased and grateful. "SIREN" wafers are absolutely harmless, pleasant to take, and convenient to carry around. They are sold under guarantee to do all we claim or MONEY BACK.

Price $1.00 per bottle. Inquire at good drug stores or send DIRECT TO US.

FREE. During the next 30 days only—we will send you a sample bottle of these beautifying wafers on receipt of 10c to pay cost of packing and postage if you mention that you saw the advertisement in this paper. The sample alone may be sufficient if the defects are trifling.
