Good Cough Medicine for Children.
 The season for coughs and colds is now at hand and too much care cannot be used to protect the children. A child is much more likely to contract diphtheria or scarlet fever when he has a cold. The quicker you cure his cold the less the risk. Chamberlain's Cough Remedy is the sole reliance of many mothers, and few of those who have tried it are willing to use any other. Mrs. F. F. Starcher, of Ripley, W. Va., says: "I have never used anything other than Chamberlain's Cough Remedy for my children, and it has always given good satisfaction." This remedy contains no opium or other narcotics and may be given as confidently to a child as to an adult. For sale by all good dealers.

The Cough Syrup that rids the system of a cold by acting as a cathartic on the bowels is

BEES LAXATIVE COUGH SYRUP

the trip with Mr. Roth and stopped over in Portland. These gentlemen went to old Mexico to look into some land investments, but found nothing to suit them.—Union Republican.

MOTORS TO RACE TROLLEY

That the O. R. & N. has in contemplation the placing of gasoline motors on the branch lines to compete with interurban electric systems, and that the first line to be equipped will probably be the line between Walla Walla and Wallula, is the latest railroad news. This information comes to the Walla Walla Bulletin from an authoritative source this afternoon.

Experiments carried out on Denver and other points on the U. P. have proved that for short hauls the gasoline motors are highly practical, as the expense of operating them is small and they make as good time as the electric roads, as they run over well ballasted tracks, while electric lines are usually surface lines with little or no excavating or fills.

Threatened opposition of the electric lines now in prospect in this valley is said to have been the cause of this recent step.

Considerable traffic can be developed at once along the line of the O. R. & N. to Wallula. College Place, the Blalock fruit ranch, Whitman, Frenchtown, Touchet, Gardena are all centers of population of growing importance, to say nothing of Wallula and Attala.

It is stated that for the cost of a single mile of the electric line the 20 miles of road can be equipped with motors sufficient to give hourly service. These motors are in successful use in many states and on various steam roads.

The talk of the new electric lines and extensions of the present systems have no doubt brought to the attention of the officials the importance of meeting this competition, which can be done, it is said, at a trifling cost.
