# DRILLING

There are several kinds of drilling but the kind the kind that makes the farm pay is the drilling which makes water available. There is no need of a dry farm. The task is not so great as you may think. I have had years of experience and understand the well business thoroughly.

## Merchants! Save \$10,000

In 1907 the Merchants of Oregon saved over \$10,000 by carrying a part of their insurance in their own company, the Oregon Merchants Mutual Fire Assurance Association, of Dayton, Oregon. In 1908 they will save \$15,000. During the same period their neighbors were handing over \$1,500,000 in profits to outside companies

In the Oregon Merchants Mutual you get:  
**INSURANCE AT COST**  
**A LIMIT TO YOUR LIABILITIES**  
**PROMPT SETTLEMENT OF LOSSES**

The idea is to keep your teeth in a normal condition and this cannot be done without the aid of a dentist. This is a age when it is possible to keep the natural teeth until the time comes when you no longer need them, provided you look after them in time. Modern methods of treatment make this possible. Remember nothing can quite take the place of the natural.

Do not think because a tooth has an abscess at the root that you must lose it. In a large majority of cases it can be saved. Be reasonably sure that your Dentist knows his business. A college training on theory is absolutely necessary if the best service is to be rendered. Practice is good but theory worked out into practice is better. My motto is "The Greatest Good to the Greatest Number"
