publican.

Moreover he who criticises present conditions and who does not offer a reasonable and feasible remedy in detail does not help any.

Those who shout "Fire, Fire," but are unwilling to get down and assist in the details of extinguishing the fire, are poor firemen.

It is not the writer's object to criticise others and try to avoid the blame himself, knowing as he does that he is unfit to cast even the second stone, but to say to the people that it is the wish of the administration to enforce the municipal and state laws in this City, and that assistance rendered by any citizen will be thankfully received.

Very Truly,  
M. K. HALL,  
MAYOR.

Best Treatment for Colds.

"Most ordinary colds will yield to the simplest treatment," says the Chicago Tribune, "moderate laxatives, hot foot baths, a free perspiration and an avoidance of exposure to cold and wet after treatment." While this treatment is simple, it requires considerable trouble, and the one adopting it must remain in doors for a day or two, or a fresh cold is almost sure to be contracted, and in many

instances pneumonia follows. Is it not better to pin your faith to an old reliable preparation like Chamberlain's Cough Remedy, that is famous for its cures of colds and can always be depended upon? For sale by All Good Druggists.
