The idea is to keep your teeth in a normal condition and this cannot be done without the aid of a dentist. This is an age when it is possible to keep the natural teeth until the time comes when you no longer need them, provided you look after them in time. Modern methods of treatment make this possible. Remember nothing can quite take the place of the natural.

Do not think because a tooth has an abscess at the root that you must lose it. In a large majority of cases it can be saved. Be reasonably sure that your Dentist knows his business. A college training on theory is absolutely necessary if the best service is to be rendered. Practice is good but theory worked out into practice is better. My motto is "The Greatest Good to the Greatest Number."

DRILLING

There are several kinds of drilling but the kind the kind that makes the farm pay is the drilling which makes water available. There is no need of a dry farm. The task is not so great as you may think. I have had years of experience and understand the well business thoroughly.

NEW DEPOT FOR BAKER

BAKER CITY, April 13.—Final transfers have just been made that places within the ownership of the O. R. & N. Railroad company sufficient ground enabling that company to make such improvements as it may see fit in Baker, and still have ground enough for further extensions in the future.

It has been known for the past year that a new depot was to be erected in Baker before very long, but no one here had any idea of the elaborate improvements and many changes that the railroad company had in mind.

To obtain what ground was needed at a reasonable price was the first thing considered by the company and it accordingly placed the matter in the hands of C. A. Johns, local railroad attorney. Few knew that there was anything doing until options were taken on practically all real estate needed for the deal. The money was then paid and deeds made, the last having just been finished.

That the new passenger depot is to be a thing of beauty is not only stated by officials, but the plans and blue prints indicate that nothing will be left undone to make it up to the minute in every detail. Those who know claim it is to be patterned after the new station in Walla Walla, except that the Baker Depot is to be even better equipped.

SHOOT HOLES IN WINDOW

Some miscreant last night tried to wreck one of the plate windows in Geddes Bros. store and largely succeeded. The window is ruined alright, an dthere seems to be no clue as to who did th job. Although those living near are positive, some of them heard some shooting last night. At least two bullets were fired through the glass.

Mr. Geddes can assign no cause for the deed except that of malicious mischief.
