FARM AT EXPOSITION

SEATTLE, April 14.—(Special.)—A miniature farm has been established at the Alaska Yukon Pacific exposition, where the products of the state will be cultivated as an object lesson to the visitors to the fair at Seattle this summer. It is hoped that such a farm will do much towards increasing interest in the clearing of logged off lands of the state.

On the exposition grounds is a producing farm in every stage of its evolution from the country as the timber cutter has left it, showing practical demonstrations of the several methods of clearing. This it is believed will lead to a brisk demand among the eastern visitors to the fair for the logged off lands of the state.

To create further interest excursions will be run to the various sections of the state where the logged off lands are fast being converted into great producing farms. The miniature farm at the exposition will suggest the possibility of development and the excursions to places where such work is being done on a large scale will no doubt meet with the approval of thousands of visitors to the 1909 exposition as well as their patronage after they see the land as it really is.

There will also be demonstrations of the wonderful productivity of the virgin soil of the state which will stand greatly in contrast with the worked-out farms of the east. This condition will commend itself to the eastern farmer who visits the fair. The very fact alone that two crops of potatoes can be produced every year on the same ground in the Puget Sound country is a fact that will practically surprise many easterners.

The miniature farm has been platted into small rectangular blocks, which have afforded an excellent opportunity for the good roads instructors and landscape artists to sow the germs of modern road construction and the art of beautifying the farms which will have the effect of making life on the farm and in country more attractive. Practical demonstrations of berry raising will also be made on the model farm.

NEW SPRAYER PURCHASED

STILLWELL HAS MACHINE THAT HAS SCORED HIT

Spraying Season Not Far Off and General Preparations Are Being Made to Give Greater Attention Than Ever to This Weighty Matter This Year.

The fruit sprayer known as the Wallace machine, which created much discussion and elicited greater compliment at the Spokane apple show made its appearance in Union county, when, yesterday, Orchardist Stillwell purchased such a machine from Ramsey-Oldenberg company, the local dealers.

This machine is considered as one of the very best of its kind and as the spraying season is soon to open, its results will be watched. General preparation is being made by orchardists to do their spraying with more attention to details this year than ever before. It became apparent last year that not enough attention has been given to this subject in the past and many fruitmen have been heard to remark that this spring.

Object to Strong Medicines.

Many people object to taking the strong medicines usually prescribed by physicians for rheumatism. There is no need of internal treatment in any case of muscular or chronic rheumatism, and more than nine out of every ten cases of the disease are of one or the other of these varieties. When there is no fever and little (if any) swelling, you may know that it is only necessary to apply Chamberlain's Liniment freely to get quick relief. Try it. For sale by All Good Druggists.

NOTICE TO CREDITORS.
