## DRILLING

There are several kinds of drilling but the kind that makes the farm pay is the drilling which makes water available. There is no need of a dry farm. The task is not so great as you may think. I have had years of experience and understand the well business thoroughly.

## Merchants! Save \$10,000

In 1907 the Merchants of Oregon saved over \$10,000 by carrying a part of their insurance in their own company, the Oregon Merchants Mutual Fire Assurance Association, of Dayton, Oregon. In 1908 they will save \$15,000. During the same period their neighbors were handing over \$1,500,000 in profits to outside companies

In the Oregon Merchants Mutual you get: **INSURANCE AT COST** A LIMIT TO YOUR LIABILITIES PROMPT SETTLEMENT OF LOSSES

The idea is to keep your teeth in a normal condition and this cannot be done without the aid of a dentist. This is an age when it is possible to keep the natural teeth until the time comes when you no longer need them, provided you look after them in time. Modern methods of treatment make this possible. Remember nothing can quite take the place of the natural.

Do not think because a tooth has an abscess at the root that you must lose it. In a large majority of cases it can be saved. Be reasonably sure that your Dentist knows his business. A college training on theory is absolutely necessary if the best service is to be rendered. Practice is good but theory worked out into practice is better. My motto is "The Greatest Good to the Greatest Number."

## NEED CASH FOR MINING

CHEYENNE, Wyo., April 16.—State Geologist Hall says: "There are mines as yet undeveloped in Wyoming that will make the state famous as the greatest copper state in the country."

"There are a dozen mineral fields in the state that are only waiting for men with capital and brains to start systematic development," he declares. "From Lander, the entire Wind River range to Montana is heavily mineralized. There are indications of great copper wealth in this country from Hartville to Converse County, and the Copper Mountain and Encampment districts have been only partially developed, the only mines being those which showed their wealth on the surface."

"The day is past when a prospector with a pick can uncover a great mine on the surface. Capital must be expended in the development, and when that is done, Wyoming will have a mining boom that will set the world to staring."
