The idea is to keep your teeth in a normal condition and this cannot be done without the aid of a dentist. This is a age when it is possible to keep the natural teeth until the time comes when you no longer need them, provided you look after them in time. Modern methods of treatment make this possible. Remember nothing can quite take the place of the natural.

Do not think because a tooth has an abscess at the root that you must lose it. In a large majority of cases it can be saved. Be reasonably sure that your Dentist knows his business. A college training on theory is absolutely necessary if the best service is to be rendered. Practice is good but theory worked out into practice is better. My motto is "The Greatest Good to the Greatest Number."

The first venture by the high school literary societies to give a winning program proved a huge success last evening when a program such as is given semi-monthly during Friday afternoons. There was nothing dull during the time required to render the program, which, as carried out as follows:

### ONE COURT READY. Tennis Will Come to Life Next Week For Long Season.

It is very likely that one of the Zalgonquin tennis courts will be ready for players late tonight. During the week repairs have been made on one of the courts, until today it is in shape to be used. It will require another week's time to perfect the other court.

Such being the case next week will find the racket artists out limbering up stiff joints for the season which promises to see several tournaments between the local and outside players, and also a fast home tournament later in the year.

A 156 acre tract near Central Point, 30 acres in orchard, sold for \$27,000, was bought a few months ago for \$19,000.
