STRANGE FISH DISPLAY.

Brilliantly Colored Sea Fish at Alaska Exposition in Seattle.

SEATTLE, Wash., April 23. (Special.)—At the Hawaiian exhibit at the Alaska-Yukon-Pacific Exposition will be seen the most remarkable collection of brilliantly colored sea fish in existence. The territorial aquarium of Hawaii, in the city of Honolulu, has long been noted for the variety and numbers represented in the collection, but it is principally in respect to the variegated colors and gorgeous tints that the fishes of "Paradise of the Pacific" are chiefly famous. In remarking upon this peculiarity, Professor David Starr Jordan, one of the world's highest authorities on the subject, said: "No aquarium can boast of a collection of fishes more unique in form and coloring, although some have a greater number."

The Honolulu aquarium will be transported to the Seattle Exposition, and the display has been greatly increased in extent and value. The work of the United States Fish Commission in Hawaiian waters has resulted in a number of rare and wonderful discoveries in sea life, and the exhibit as now completed and ready for transportation from Honolulu, is the finest and most comprehensive collection of marine life ever assembled.

Best Treatment for Colds.

"Most ordinary colds will yield to the simplest treatment," says the Chicago Tribune, "moderate laxatives, hot foot baths, a free perspiration and an avoidance of exposure to cold and wet after treatment." While this treatment is simple, it requires considerable trouble, and the one adopting it must remain in bed for a day or two, or a fresh cold is almost sure to be contracted, and in many instances pneumonia follows. Is it not better to pin your faith to an old reliable preparation like Chamberlain's Cough Remedy, that is famous for its cures of colds and can always be depended upon?
