Adler's Collegian Clothes

represents the highest type of ready to wear apparel America produces. The fabric, the linings, the tailoring and the fitting qualities are best appreciated when critically compared with the clothes of any other maker. The man who is painstaking in the selection of his clothes—who recognizes the real worth of a well made garment with which is combined the best features of present day fashion is the man whose attention we seek. Collegian clothes for Spring are now being shown by

STOCK AT THE A. Y. P.

Exhibition of Fine Stock at The Fair, Late in Fall.

SEATTLE, Wash., April 16.—Enough entries have been promised to insure the complete success of the Live Stock Show of the Alaska-Yukon-Pacific Exposition, and the affair will be the most important gathering of prize animals ever held in the West. The event will be held on the exposition grounds from September 27th to October 9th inclusive.

The Canadian Government has appropriated the sum of \$1,500 for transportation expenses, and this will be utilized by the Cattle Breeders Association of Manitoba in sending several car loads of stock to Seattle. The value of live stock exhibits on the Pacific Coast has been thoroughly demonstrated by the success following the live stock show in Portland in 1905, and since that time, the western sales of two stock associations in the East have totalled over \$1,000,000.

The West and Northwest are today considered as the most promising fields for high class stock development, and this fact has been generally recognized by breeders. The exposition appropriation of prize money and premiums is liberal, and this has been increased by offerings of individual breeders and dealers to the extent of \$10,000.

The official catalogue of the Live Stock Show will be ready for distribution early in May, and this will include all necessary information regarding entries, classification and awards.

Best Treatment for Colds.

"Most ordinary colds will yield to the simplest treatment," says the Chicago Tribune, "moderate laxatives, hot foot baths, a free perspiration and an avoidance of exposure to cold and wet offer treatment." While this treatment is simple, it requires considerable trouble, and the one adopting it must remain in doors for a day or two, or a fresh cold is almost sure to be contracted, and in many instances pneumonia follows. Is it not better to pin your faith to an old reliable preparation like Chamberlain's Cough Remedy, that is famous for its cures of colds and can always be depended upon?
