The country generally hopes that President Taft's prediction that the tariff bill will be ready for his signature by June first, will come true. The schedule will not please all, no matter how adjuster; and the main need at this time is the assurance of a permanent schedule in order that the commercial work will know what to depend upon. This uncertainty has caused a depression in nearly all lines for the past year. All that is needed to restore prosperity in the United States is to give business a chance to do business.

It is to be hoped that our school board will provide for a starter at least in finally reaching the place where music will receive greater recognition in our public schools next year than in the past. We understand this is to be the case.

It will not be long until other sections will be citing what water has done for La Grande and Grand Ronde valley. Irrigation has laid the foundation for a score of cities the size of La Grande and larger in the Northwest the past ten years.

Our boys have been trying to defeat Walters in many meets; at last they caught him for several points. It goes without saying that Union county will be in the thickest of the contests at Walla Walla this week.

This will be a busy week. The Supreme Court meets tomorrow; the city council and county court on Wednesday, and the carnival every evening. Something doing all the time.

Well, the Parker shows certainly meet the expectations of all. The name Parker in the carnival world has the same reputation as the Ringling Bros' in circus circles.

It would have been an easy matter to have taken the census of the city yesterday. Everybody, but those who are ill were out taking in the warm bright sunshine.

A few warm days like yesterday and not only the ice cream stand will grow in popularity, but the crops as well.

Ferry certainly set a pace that the other ball teams will find it difficult to keep up with. Baker can give a testimonial to this effect.

"Do winter apples pay?" Just watch the prices that Grand Ronde growers will receive for their crop.

The band concert was enjoyed yesterday by hundreds of our people.

DRILLING

There are several kinds of drilling but the kind the kind that makes the farm pay is the drilling which makes water available. There is no need of a dry farm. The task is not so great as you may think. I have had years of experience and understand the well business thoroughly.
