INSPECTOR AT IMBLER

A new and strange malady is just commencing to make its appearance in the fruit trees in the vicinity of Imbler, and the orchardists have shown the proper interest by taking steps to kill it off before it gains headway. At present it has appeared in only a few trees, and resembles winter kill, though it is not that either. County Fruit Inspector Oldenberg today went out to Imbler in response to a call from the orchardists there, and he will endeavor to ascertain the nature of the disease and the

best methods to stamp it out before it spreads. It is yet confined to five trees.

Aeroplane Show Tonight.

Now that the carnival is gone, amusement centers in the vaudeville houses and the Scenic is opening the week of May 10th strong. Something spectacular in the moving picture line is slated for tonight when the Willbar Wright's aeroplane will be thrown on the screen. It shows Wright making his world-record breaking flight and shows him and his machine at close range.

The American public which is fortunate enough to witness this interesting picture will have an opportunity of realizing what wonderful strides the Wright brothers have made in their effort to conquer the air as a means of navigation. So far this wonderful invention has surpassed anything previously attempted and they have been the winners of all prizes offered by the aero-clubs of foreign countries.

where some of the aeroplanes which were considered perfect types, sink into oblivion when matched with that of the ingenious Americans. There is an excellent view given of Mr. Wright and his aeroplane flying at a height of 700 feet and remaining at that tremendous altitude for two hours, a feat never accomplished before.

There are four other films, all bound to create laughter. The vaudeville is outlined in house ad in this issue.

Best Treatment for Colds.

"Most ordinary colds will yield to the simplest treatment," says the Chicago Tribune, "moderate laxatives, hot foot baths, a free perspiration and an avoidance of exposure to cold and wet after treatment." While this treatment is simple, it requires considerable trouble, and the one adopting it must remain in doors for a day or two, or a fresh cold is almost sure to be contracted, and in many instances pneumonia follows. Is it not better to pin your faith to an old reliable preparation like Chamberlain's Cough Remedy, that is famous for its cures of colds and can always be depended upon?
