What Are You Worth From the Neck up?

The ordinary unskilled laborer is worth from \$1.50 to \$3.00 per day from **the neck down**. If you are capable of doing **head work**—planning and directing the work of others, your services are worth from \$4.00 to \$10.00 per day upwards. Two fifty to seven dollars a day represents the difference from a financial standpoint between the trained and the untrained worker, or in other words if your value lies from the neck up, or neck down.

Many a man, who today is down in the mire of **ever work and under pay**, with a course of training such as the I. C. S. is able to give, would become a leader in his chosen work. If you are ambitious and willing to utilize your spare time for advancement, drop me a line and tell me something of your ambition and what you would like to prepare for. The I. C. S. will meet you more than halfway. You are putting yourself under no obligation by writing us and we are willing to give you every opportunity of investigating our methods and after it has been explained to you, act on your own judgment. Write today.
