

Where Quality Govern

The Best by Test are shoes with a reputation; The Gloria, Pingrees Ladies shoes, Dunin Ladies and children shoes and the J. E. Tilt men's shoes are shoes that everybody knows. If not, a trial pair is the best introduction. The style, fit and finish of these shoes are beyond criticism. Every pattern is decidedly original, assortments wide and people of economical taste can find equal satisfaction with those of expensive ideas.

Shoes Must Fit Before They will Give Satisfaction

All our Oxfords are made on Oxford lasts and have a smooth ankle fit which you do not get in Oxfords made on a high cut last. This is the reason why our shoes fit and wear so well.

E-RU-SA—THE ONLY LAWFUL PILE CURE.

Because it does not contain narcotics, mercury, cocaine, lead or any poisonous drugs. Because E-RU-SA cures piles, U. S. Dispensary recommends every ingredient of E-RU-SA. Drug laws make "false or misleading statements" a crime. Therefore the sale of all old or narcotic pile medicines is illegal because they effect the brain and spinal marrow, produce constipation and never cure. Only druggists of highest standing sell and endorse E-RU-SA.

BOYS HOME FROM MEET

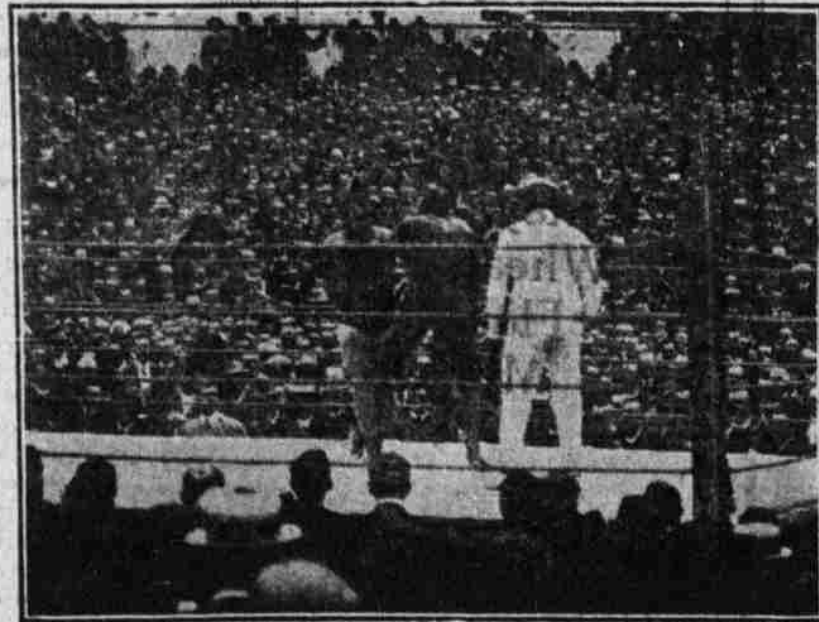

POINTS WON.

Individual Points.

Gordon, Pendleton 15,
Moody, Ontario 15,
Peare, La Grande 19.

Scoring 19 points, as compared with 3 last year, the La Grande track and field team returned this morning from Pendleton where it competed in the annual interscholastic track and field meet. While it is true that La Grande had hopes of winning the meet and cup, it was, for all that, lucky to get points at all, for it was not so much a contest of skill and speed against skill and speed but luck in drawing suitable places on the road used for a track. In the weight and field events, this is of course not true, as there was absolute fairness there. In the track it was the man that crowded the others just before the finish that won. It could never be otherwise, for the track was just the width of a driving road. There were no lanes at all and the runner could take any course he desired after the starting gun. Oliver Houston the track sprinter from the University of Oregon was the

starter and was competent. He was salted all without exception.

In the preliminaries, La Grande was given a jolt that rather discouraged the men, and when Peare was spiked things didn't better themselves. In the afternoon the same streak of luck seemed to follow the boys and when an event seemed won something would transpire to take the victory away. After Peare had been jerked by the hand, and thrown to the ground by Moody of Ontario, the La Grande's threw up the sponge of hope and from then on fought a losing game.

Peare was leading the finals in the hurdles by two feet at the fifth hurdle and was leaving the field fast when Moody caught Peare's outstretched hand and jerked him sideways. When Peare had recovered himself the runners were far past him.

Millering cleared the pole vault bar at 10 feet 6 inches, winning second place. Heidenrich got air second in the discus with little effort, but failed to touch the 100 mark as he customarily does in practice work. Reynolds led all the way in the quarter, notwithstanding that Walters had kept out of other events for this one, but at the finish, Walters had breast-ed him on one side and White of Baker on the other, and when they dashed over the tape, Reynolds was crowded back to third pace by a foot.

It was things like these that took the "ginger" away from the boys and with that gone, defeat was sure.

As an example of the luck that trailed behind La Grande, it can be cited how La Grande drew number one or the cream of positions in the relay race, and then when the fact became known another draw was ordered on some flimsy excuse. The second time La Grande drew number 10 or the outside position, well out among the boulders.

Peare's splendid showing of endurance in the half and the mile was a feature of the day.

Houston Exhibits.

Oliver Houston ran an exhibition 100 in 10:2-5, not fast for him, but his beautiful form was a treat to the novices of the high school fame.

Adler's Collegian Clothes

represents the highest type of ready to wear apparel America produces. The fabric, the linings, the tailoring and the fitting qualities are best appreciated when critically compared with the clothes of any other maker. The man who is painstaking in the selection of his clothes—who recognizes the real worth of a well made garment with which is combined the best features of present day fashion is the man whose attention we seek.
