LAST EXAMS TAKEN TODAY

Commencement week with its due share of excitement, anxiety, heart pangs and its pleasures is rapidly drawing to a close and as Friday night approaches little else is discussed in student circles, for today is seeing the last of examinations. The athletes who were away during regular examination periods, "took 'em" yesterday.

Commencement Tomorrow.

While the seniors are stealing a last glance at their orations, theses or essays, the Juniors have the front, down stage, for commencing tomorrow morning and continuing until their task is completed, they will be decorating the stage of the Steward and will put it in shape for their departing fellow students. The heads of decoration committees have some novel "hunches" and wise tips on how to best arrange the stage. The style of decoration will be kept in secrecy until the public is ushered in tomorrow evening. Tickets are now on sale for the exercises.

Last Exams Today.

The last of the regular and special examinations were held today, and by tomorrow evening, all anxiety about who passed and who "flunked" will have subsided, for, while not officially announced, the students are invariably aware of their standings in respective studies.

S.S.S. NATURE'S TONIC

The very great majority of persons need a tonic in the Spring or early Summer. The system undergoes a change at this season and the entire physical machinery is disturbed. The general bodily weakness, a tired, worn-out feeling, rickety appetite, poor digestion, a half sick feeling and a general run-down condition of the system, show that the blood is weak or anemic, and a blood purifying tonic is needed to build up the deranged system and enrich the blood. The use of S.S.S. at this time may save you from a long spell of sickness, and it will certainly prepare you for the long, hot Summer. Many people have put off using a tonic until the system became so weakened and depleted it could not successfully throw off disease germs, and have paid for the neglect with a spell of fever, malaria or some other debilitating sickness. S.S.S. is Nature's ideal tonic. It is a composition of the extracts and juices of roots, herbs and barks which science and experience have proven are best fitted for a tonic to the human system. It contains no minerals of any kind and is therefore perfectly safe for persons of any age. S.S.S. tones up the stomach and digestion, rids the system of that tired, worn-out feeling, and imparts vigor and strength to every part of the body. It purifies and enriches the blood, stimulates the secreting and excreting members to better action, quiets the overstrained nerves, and makes one feel better in every way.
