TRAVELLER TO LECTURE

Prof. Batelli will lecture at the scenic theatre this evening, as it was presumed by the Observer last evening would be the case, and La Grande theatre goers will have a chance to see the strange personage who has dared to undertake one of the most grueling walks known to the modern times.

This is one of the greatest endurance trips ever attempted by any man and is being recorded by the leading journals in the four different languages, among them the New York American.

That he is not riding a portion of the way, and walking occasionally is attested to by the fact that he has had in his autograph album, the signatures of prominent officials of big cities, and what is more convincing, the signatures of men and people in towns remote from railroads and where no trains of any kind appear. As he progresses on his way, he adds to his autograph list, and in La Grande has secured the signatures of the newspaper fraternity and of the city's officials.

In a confidential moment, this morning, he produced photographs of his dead wife, killed by bloodpoisoning while operating on a patient in one of the leading hospitals of Rome, and also photographs of his two little daughters, now in Rome awaiting the return of their father. The professor's father is a member of the Italian Parliament.

As related yesterday the stranger is an intelligent individual, who understands humanity and can look into conditions with an understanding eye.

Relative to his lecturing ability, it can be said that en route, from the east to La Grande, he has given lectures in many of the big cities. It is in this way that he makes his expense money. Newspapers everywhere comment on his interesting line of discourses.

On account of the Rose Festival the O. R. & N. makes a rate round trip of \$12.15, La Grande to Portland. Dates of sale June 7th and 9th. Time limit, June 14th. Extra coach and standard sleeper on train No. 5, June 7th. Those wishing sleeper space please 'phone ticket or freight office.

SILVER TOILET SETS. Nothing will be as much appreciated by the bride and groom as something that will be of practical as well as decorative use—in other words, silver backed hair brushes, combs, manicure sets, etc. etc.

In these lines we are showing splendid assortments—assortments that compare favorably with the most completely stocked of metropolitan establishments—at prices that are much better than those quoted here of elsewhere.

You will do well to inspect our stock before you buy elsewhere.

What Are You Worth From the Neck up?

The ordinary unskilled laborer is worth from \$1.50 to \$3.00 per day from the neck down. If you are capable of doing head work—planning and directing the work of others, your services are worth from \$4.00 to \$10.00 per day upwards. Two fifty to seven dollars a day represents the difference from a financial standpoint between the trained and the untrained worker, or in other words if your value lies from the neck up, or neck down.

Many a man, who today is down in the mire of ever work and under pay, with a course of training such as the I. C. S. is able to give, would become a leader in his chosen work. If you are ambitious and willing to utilize your spare time for advancement, drop me a line and tell me something of your ambition and what you would like to prepare for. The I. C. S. will meet you more than halfway. You are putting yourself under no obligation by writing us and we are willing to give you every opportunity of investigating our methods and after it has been explained to you, act on your own judgment.
