## MONUMENT UNVEILING IN SEATTLE

SEATTLE, June 14.—The third week of the exposition was ushered in today with many features and a heavy attendance. The celebration of flag day was marked by a special musical program, and several speeches in the amphitheater.

Another event was the unveiling of the statue of George Washington erected near the main entrance. Amid the strains of music and booming of mortars, the statue was revealed to the public when little Eleanor Washington Caldwell, three years of age, a grand daughter of John Augustine

Washington, the last owner of Mount Vernon, drew aside the veil. The exercises began with an oration on Washington by Prof. E. S. Meany, of the University of Washington. Governor Hay, on behalf of the State, and President Thomas F. Kane, of the University of Washington, delivered the address of acceptance for the university.

Tonight a reception will be given to Ambassador and Mme. Jusserand, of France, in the Washington State building.

## CHILDREN'S DAY AT CHURCHES

FITTINGLY OBSERVED BY CHURCHES OF THE CITY

Presbyterian and Methodist Sunday Schools render special programs in the evening—Baptist Program Postponed—Concert at The Central Church—Services at Adventist Meeting House.

Children's Day was fittingly observed in the various churches of the city yesterday. Special music was rendered at nearly all of them, and at the Presbyterian and Methodist churches the children themselves gave the programs in the evening, paying special attention to the missionary spirit which prevailed both in their work and their giving for the educational fund.

The Baptist church for various reasons, had to postpone their program, but will give it next Sunday evening. At the Christian church, under the

direction of Mr. Frank Bridges, a very pleasing musical program was given in the evening, and it proved to be very pleasing. The solos, both vocal and instrumental, were especially fine. The entire program was a credit to both Mr. Bridges and the choir. The program was published in Saturday's issue of this paper.

At the Episcopal, there was no special services, but the rector, Rev. Upton H. Gibbs, delivered very excellent sermons.

The Seventh Day Adventists also held services yesterday.

## ARGUMENT BEGINS IN CALHOUN TRIAL

SAN FRANCISCO, June 14.—Attorneys in the trial of Patrick Calhoun, President of the United Railroads, charged with the bribery of former Supervisor Fred Nichols, in connection with the granting of an overhead trolley franchise, began the closing arguments today. Calhoun was indicted March 26, last year. The official transcript of the trial contains 1,475,000 words. Assistant District Attorney John O'Gara, Heney's right hand man, opened for the prosecution and made an impassioned appeal to the jury to safeguard the honor of their homes, and the integrity of their institutions.

He said: "If you are satisfied that the \$200,000 received by Calhoun at the U. S. mint was paid to supervisors for votes, then you should have no difficulty in deciding Calhoun guilty." O'Gara continued: "There is nothing

ing courageous or chivalrous in the crime which this record shows. It shows that Calhoun wanted a franchise for the operation of an overhead trolley. It shows that the day of the earthquake was a propitious time; that he made a contract with Abe Ruef; that Ruef gave orders to his puppets, the supervisors, and that without any consideration for the rights of the people Calhoun pocketed the franchise, went to his eastern home, and the supervisors got the money. The case resolves itself into two questions: First—was a bribe offered Nichols? Second—was the defendant legally responsible for offering a bribe? The law does not require us to show that Calhoun went personally to Nichols and said, 'here, Nichols, if you will vote yes on the overhead trolley matter I will give you \$4,000.' The man who acts through another is himself guilty."

sold at the same price that is obtained from the higher priced raw sugar.
