S.S.S. CURES BLOOD POISON BOOKLET OUT

When the blood becomes infected with the virus of Contagious Blood Poison, the symptoms are soon manifested. The mouth and throat ulcerate, copper-colored spots appear, a red rash breaks out, the hair begins to come out, and usually sores and ulcers show themselves on different parts of the body. At the first sign of the disease S.S.S. should be taken, for the trouble is too powerful and dangerous to trifle with. If allowed to run on the tendency is to work down and attack the bones and nerves, and sometimes it makes a complete physical wreck of the sufferer. The disease can make no such headway if S.S.S. is commenced and used according to directions; its progress can be stopped, the poison removed, and health preserved. S.S.S. goes into the blood and removes the insidious virus, cleanses the circulation and makes a complete and permanent cure by driving out the cause. S.S.S. quickly takes effect on the blood, and gradually the symptoms disappear, the health is improved, the skin cleared of all spots, sores and blemishes, and when S.S.S. has thoroughly purified the circulation no trace of the disease is left. S.S.S., a purely vegetable remedy, cures Contagious Blood Poison because it is the greatest of all blood purifiers, tested and proven for more than forty years. Home treatment book and any medical advice free to all who write.

THE SWIFT SPECIFIC CO., ATLANTA, GA

Union county, the Grande Ronde valley, and the city of La Grande are separately and collectively extolled in a fine booklet issued by the Oregon commission of the A-Y-P. commission of which W. T. Wright of Union is a member. In the opening of the booklet devotes considerable space to the usual divisions in the state, and then additional space to the counties and cities separately. It is made up of 90 closely printed pages and will be read by thousands who come to the Oregon building at the Seattle fair.

TAYLOR KEEPS BUSY.

Erstwhile Booster Busy in New Location in State of Utah.

Fred G. Taylor, the erstwhile booster and sugarbeet grower of this city, writes from Lewiston, Utah, that he is "busy all the time" but finds time to occasionally indulge in reveries of the dear old "Grande Ronde" and its delightful people. Mr. Taylor is now manager of one of the largest factories of its kind in the world.

There are dentists and dentists. As a rule the person having dental work done, extracting if you please, would like to have a man to do the work who is careful, sure of his own ability and can do the work. The same along other lines of dental work. If excavating for a filling you want the man who can do it thoroughly with the minimum amount of pain. Some of these things come with years of experience only; and sometimes not then. These are things which you already know but I bring them to your attention that you may think them over. It is not "ethical" for one dentist to say that he has these qualifications above his fellows, hence I shall have to leave it for you to decide for yourself.

Resp. J. E. STEVENSON.
