S.S.S. CURES BLOOD POISON

When the blood becomes infected with the virus of Contagious Blood Poison, the symptoms are soon manifested. The mouth and throat ulcerate, copper-colored spots appear, a red rash breaks out, the hair begins to come out, and usually sores and ulcers show themselves on different parts of the body. At the first sign of the disease S.S.S. should be taken, for the trouble is too powerful and dangerous to trifle with. If allowed to run on the tendency is to work down and attack the bones and nerves, and sometimes it makes a complete physical wreck of the sufferer. The disease can make no such headway if S.S.S. is commenced and used according to directions; its progress can be stopped, the poison removed, and health preserved. S.S.S. goes into the blood and removes the insidious virus, cleanses the circulation and makes a complete and permanent cure by driving out the cause. S.S.S. quickly takes effect on the blood, and gradually the symptoms disappear, the health is improved, the skin cleared of all spots, sores and blemishes, and when S.S.S. has thoroughly purified the circulation no trace of the disease is left. S.S.S., a purely vegetable remedy, cures Contagious Blood Poison because it is the greatest of all blood purifiers, tested and proven for more than forty years. Home treatment book and any medical advice free to all who write.

100 WILL ATTEND BANQUET

At the Commercial club banquet Monday night there will be 100 plates. Already nearly that many members and business men have put their names on the list of guests, and there will be several added today. This will be one of the most enjoyable functions of the season, and will result in great profit to the club, not in a financial way, but by increasing the feeling of good fellowship and the desire for cooperation among the members. There will be toasts and after-dinner speeches in plenty. Last but not least, the feed itself will delight the inner man.

There are dentists and dentists. As a rule the person having dental work done, extracting if you please, would like to have a man to do the work who is careful, sure of his own ability and can do the work. The same along other lines of dental work. If excavating for a filling you want the man who can do it thoroughly with the minimum amount of pain. Some of these things come with years of experience only; and sometimes not then. These are things which you already know but I bring them to your attention that you may think them over. It is not "ethical" for one dentist to say that he has these qualifications above his fellows, hence I shall have to leave it for you to decide for yourself.
