

S.S.S. THE CURE FOR SCROFULA

The usual symptoms of Scrofula are enlarged glands of the neck, sores and ulcers on the body, skin affections, catarrhal troubles, weak eyes, and general poor health. The inherited poison, transmitted through the blood, pollutes and weakens this fluid, and in place of its nutritive qualities fills the circulation with scrofulous matter, which saps the vitality of the entire system. Thousands of children, born with a scrofulous taint, have spent their childhood in constant physical suffering, and grown to manhood or womanhood handicapped by ill health and stunted growth, and perhaps later some disease of the bones or joints developed. S. S. S., given in their early life, would have prevented this. It would have cleansed and purified the blood of the taint, nourished and strengthened their systems, and assisted each to grow into strong, healthful manhood or womanhood. S. S. S. is the very best remedy for Scrofula. It goes down to the bottom of the trouble, and cleanses the circulation of all scrofulous matter. It supplies the weak, diseased blood with strength and health-building qualities, and under the purifying effects of this great remedy all symptoms of Scrofula pass away. S. S. S. contains no minerals in any form, and is an absolutely safe treatment for children, even infants, or persons of any age. Literature about Scrofula and any medical advice free.

FINEST SPORT PROGRAM EVER SEEN HERE PROVIDED

One of the finest calendar of sports that were ever arranged at a celebration of any kind in this city, was outlined and decided at a meeting of the athletic committee last evening in the Commercial club. The chief events will be in the high school classes where entries are open to all students and amateurs in Eastern Oregon, a fact which should make an excellent meet in itself. In addition to the mainstays, there will be the usual side-splitting feats and races galore for boys to enter in and the fat men and the girls too.

The runners and the teams in the hub and hub and the wet race have not been chosen and as soon as the hose company holds a meeting, all these phases will be acted on.

Should Make Entries Now.

Entries for the races of all descriptions should be made now or as soon as possible. While they will be received up until an early hour on the morning of the fifth, the committee would appreciate prompt entries at once. This will facilitate matters immensely. These should be left with A. W. Nelson at the Observer office in person or by mail.

Today the committee selected the medals for winners in the amateur classes, and fine gold ones were chosen for first place and silver for second places. These will be here ready to hand to the winners after the races. Cash prizes have been pro-

vided for the juvenile and special classes. Following is the list of events which will be scattered through the day's program at regular intervals:

AMATEUR CLASSES.

100 yard dash open to high schools and amateur clubs of Eastern Oregon.

440 yard dash—same conditions.

BACK-ACHE

JOHN W. KENNEDY & CO. CHICAGO, U. S. A.

SHE'S A QUEEN! SHE'S A SIREN! is an expression that is always heard at sight of a well developed woman. If you are flat-chested, undeveloped, a sawny neck, thin, lead arm—remark will never be applied to you. "SIP" wafers will make you beautiful, bewitching. They DEVELOP THE BUST in a week from 3 to 6 inches and produce a fine, firm, voluptuous bosom. They fill out the hollow places, make the arms handsome and well modeled and the neck and shoulders shapely and of perfect contour.

Send for a bottle today and you'll be pleased and grateful. "SIP" wafers are absolutely harmless, pleasant to take, and convenient to carry around. They are sold under guarantee to do all we claim or MONEY BACK.

Price \$1.00 per bottle. Inquire at good drug stores or send DIRECT TO US.

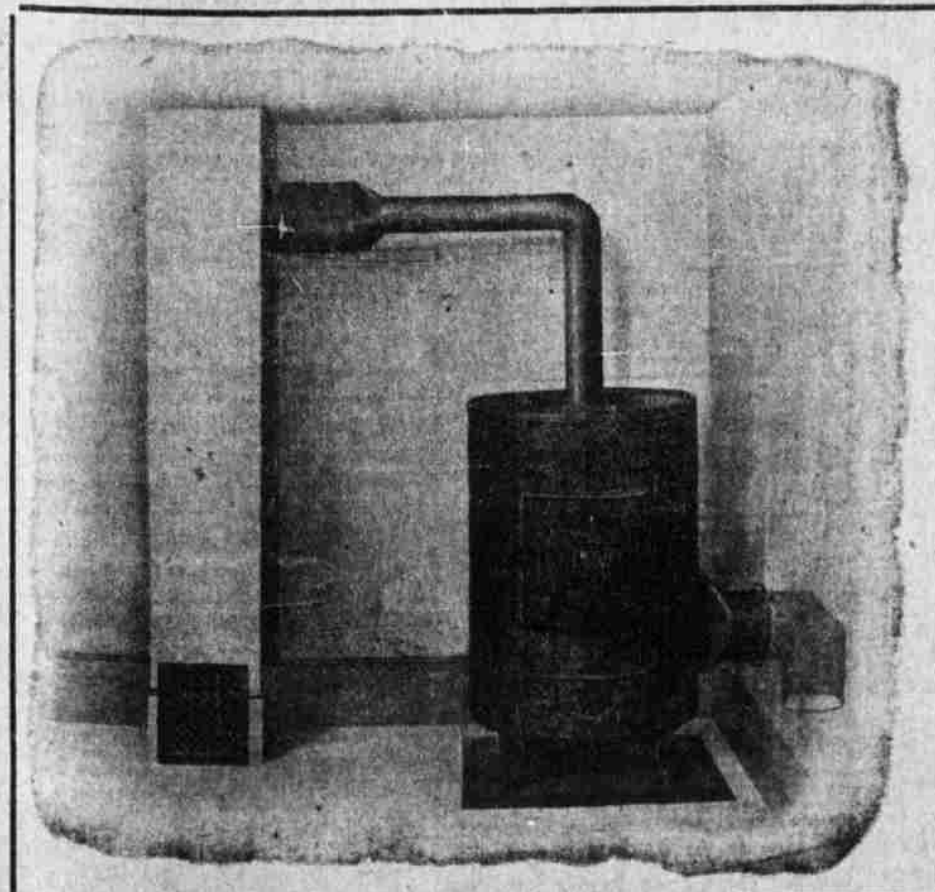

FREE. During the next 30 days only—we will send you a sample bottle of these beautifying wafers on receipt of 10c to pay cost of packing and postage if you mention that you saw the advertisement in this paper. The sample alone may be sufficient if the defects are trifling.

The Heating and Ventilating Problem Solved By the Waterbury System

For Schools, Churches, Lodge Rooms, and Public Buildings

Does away with window ventilation, which is almost as great an evil as impure air. Maintains a uniform temperature all over the room. Eliminates the cold floor problem and the "dreaded hot stove." Adds 25 per cent to the seating capacity by removing the plant to the corner. Great saving in fuel bill. Requires no basement. Always under direct supervision. No expense to install. Will burn either wood or coal. Every plant guaranteed to meet the most exacting requirements. No Experiment, Plant in successful operation in Public School of La Grande. Invented by J. L. Waterbury who for many years taught in the public schools, after carefully studying the problem and long experimenting devised and patented the system. Those seated in the farther corner of the room will be just as warm as those sitting near the plant. Can be attached to any flue. Every school district should investigate this system.

M. SNIDER, Agent, La Grande, Ore.

I have taught in the various schools of the county for the past fourteen years and the knowledge of the improper heating and ventilating conditions caused me to take this agency.
