

# S.S.S. THE CURE FOR SCROFULA

The usual symptoms of Scrofula are enlarged glands of the neck, sores and ulcers on the body, skin affections, catarrhal troubles, weak eyes, and general poor health. The inherited poison, transmitted through the blood, pollutes and weakens this fluid, and in place of its nutritive qualities fills the circulation with scrofulous matter, which saps the vitality of the entire system. Thousands of children, born with a scrofulous taint, have spent their childhood in constant physical suffering, and grown to manhood or womanhood handicapped by ill health and stunted growth, and perhaps later some disease of the bones or joints developed. S.S.S., given in their early life, would have prevented this. It would have cleansed and purified the blood of the taint, nourished and strengthened their systems, and assisted each to grow into strong, healthful manhood or womanhood. S.S.S. is the very best remedy for Scrofula. It goes down to the bottom of the trouble, and cleanses the circulation of all scrofulous matter. It supplies the weak, diseased blood with strength and health-building qualities, and under the purifying effects of this great remedy all symptoms of Scrofula pass away. S.S.S. contains no minerals in any form, and is an absolutely safe treatment for children, even infants, or persons of any age. Literature about Scrofula and any medical advice free.

# PETITION FOR PAROLE OF HAWLEY ACTED ON FRIDAY

Tomorrow Judge J. W. Knowles will take action on a petition for parole for Roy Hawley charged with stealing lard from the Oliver ranch, the charge being made jointly against Frank Parker, now in the penitentiary, Roy Chandler, acquitted, and Mr. Hawley. The petition is a remarkably strong one, being composed of representative names from a large section of Union county. It contains more names, and more influential signatures, than the average paper of its kind. The court will sit and take

action tomorrow. **Parker Exonerates Hawley.** When Parker had been convicted and sentenced, he was taken to Salem by Chief of Police Rayburn, and to his conqueror Parker said that he would go on the stand and swear that neither Chandler or Hawley had anything to do with the stealing. The fact that they had any connection with the stealing. The fact that they had any connection with the matter at all, was due primarily to the influence exerted by Parker, according to Parker's own statements.

## OIL ADVICES GIVE CHEER

BAKER CITY, June 24—Private advices received in Baker City Monday were to the effect that oil in considerable quantity had been struck in the well of the monmouth Oil Company. The fact that such a development had been made was a matter of secrecy on the part of those on the inside, but it leaked out and was generally known over town yesterday and caused no little excitement for the reason of the large number of Baker people who are interested financially in Malheur oil fields.

## CIRCUS BILLS TAKEN DOWN

The circus posters which have been tacked on the telephone posts on Adams avenue, have been taken down by the city officials. After the bills were up Chief Rayburn and City Attorney Baker went to digging after an ordinance to prohibit the tacking of bills on telephone posts, and after diligent search succeeded in finding one and orders were issued to the billposters to remove them at once. On account of rain the show people asked for a delay which was granted. The advertising car left and also left the bills on the post. Yesterday the city authorities got busy and removed the obnoxious sight.

# The Heating and Ventilating Problem Solved By the Waterbury System

## For Schools, Churches, Lodge Rooms, and Public Buildings

- Does away with window ventilation, which is almost as great an evil as impure air.
- Maintains a uniform temperature all over the room.
- Eliminates the cold floor problem and the "dreaded hot stove."
- Adds 25 per cent to the seating capacity by removing the plant to the corner.
- Great saving in fuel bill. Requires no basement. Always under direct supervision.
- No expense to install. Will burn either wood or coal.
- Every plant guaranteed to meet the most exacting requirements.
- No Experiment, Plant in successful operation in Public School of La Grande.
- Invented by J. L. Waterbury who for many years taught in the public schools, after carefully studying the problem and long experimenting devised and patented the system.
- Those seated in the farther corner of the room will be just as warm as those sitting near the plant.
- Can be attached to any flue. Every school district should investigate this system.

**M. SNIDER, Agent, La Grande, Ore.** I have taught in the various schools of the county for the past fourteen years and the knowledge of the improper heating and ventilating conditions caused me to take this agency.
